Sheer
Driving Pleasure

Ranked number one by drivers:
The new BMW M3 Coupé.

Music to your ears at
8,400 beats per minute.

How do you get fast lap times?
With ease.

Your new BMW M3 is easily restrained.
Unlike your enthusiasm.

From standstill
to pole position.

Even on the road
you're on the fast track
to driving pleasure.

When you count
every millisecond,
every detail counts.

When two extremes meet,
a powerful force is called into
being: the new BMW M3 Saloon.

Amadeus ex machina.

A silver BMW 3 Series sedan is shown from a high-angle, front-quarter perspective, driving on a racetrack. The car is in motion, as indicated by the blurred background and the motion blur on the wheels. The license plate reads "MöKN 4524". The car's design features include the iconic kidney grille, headlights, and side mirrors. The background shows a red and white striped curb and a checkered pattern on the track.

Steers clear of
compromise.

Smouldering brake
discs are only
the warm-up act.

Formed in the fast lane.

Records can't always
be broken. But you
can never stop trying.

Who says
there's no room
at the top?

Don't soak up the sun.
Hunt it down.
The new BMW M3 Convertible.

Shame we can't picture the sound.

Steering wheel of fortune.

Sit back and enjoy the ride –
but there's no respite for the road.

Ready. Set. Go.

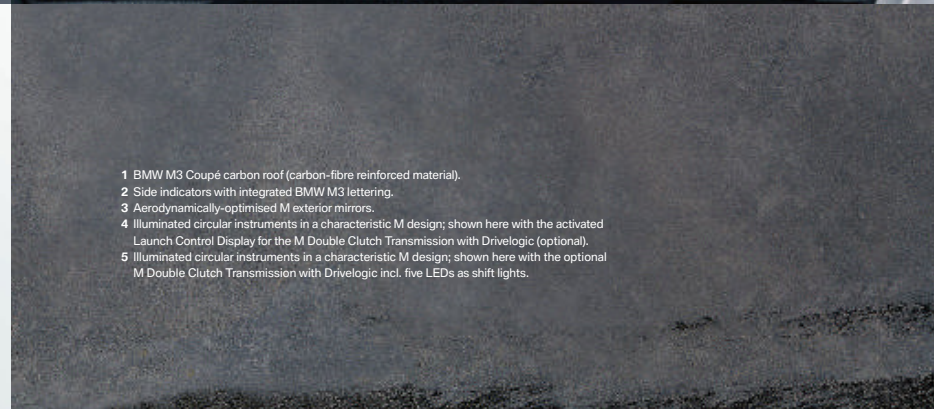

Its performance: outstanding.
Its elegance: inviting.

Close to the sun. Even closer to the road.

1 BMW M3 Coupé carbon roof (carbon-fibre reinforced material).

2 Side indicators with integrated BMW M3 lettering.

3 Aerodynamically-optimised M exterior mirrors.

4 Illuminated circular instruments in a characteristic M design; shown here with the activated Launch Control Display for the M Double Clutch Transmission with Drivelogic (optional).

5 Illuminated circular instruments in a characteristic M design; shown here with the optional M Double Clutch Transmission with Drivelogic incl. five LEDs as shift lights.

Figures in [] apply to vehicles with M Double Clutch Transmission with Drivelogic.

¹ Storage compartments not foldable in the BMW M3 Saloon.

² The figure quoted includes a 90 per cent tank filling, 68 kg for the driver and 7 kg for luggage.

Unladen weight applies to vehicles with standard specification. Optional equipment may increase this figure.

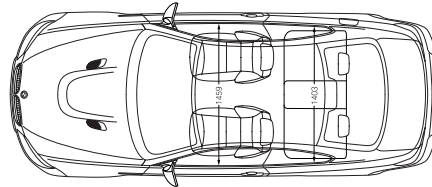

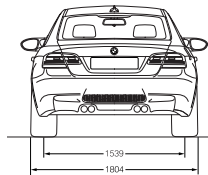

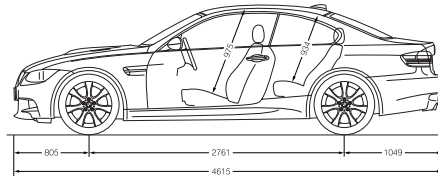

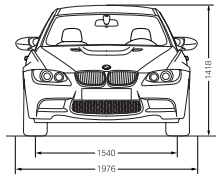

³ The petrol engine is designed for RON 98 fuel. They may be run on RON 95 fuel, with a decrease in power.

⁴ The 8-cylinder V engine meets the EU4 emissions standard. Fuel consumption is determined in accordance with the ECE driving cycle. Specified by RL 80/1268/EWG. This is made up of approximately one third urban and two thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured in addition to fuel consumption. Fuel consumption is determined for vehicles with standard equipment. Optional equipment (such as broader tyres) can have a significant impact on fuel consumption.

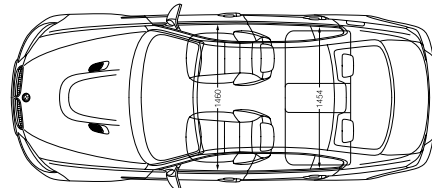

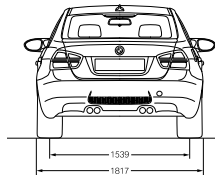

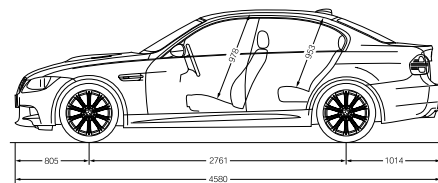

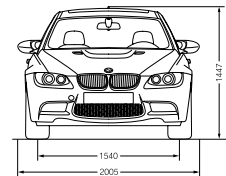

⁵ Electronically limited.

Optional extras are available fully installed straight from the factory. For additional extras see the extensive catalogue of accessories at your BMW partner. BMW Individual will be happy to help should you wish your BMW to include features not listed here. To find a package that perfectly suits what you have in mind, simply contact your BMW partner for assistance.

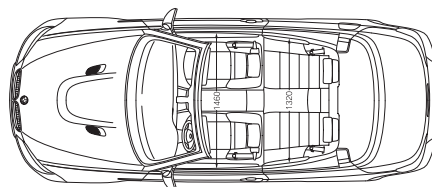

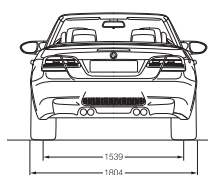

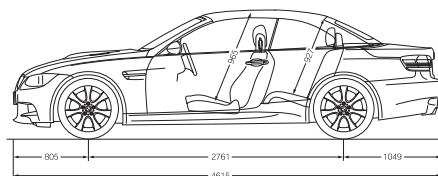

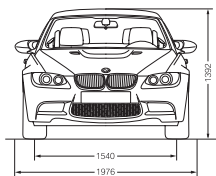

BMW M3 Coupé

BMW M3 Saloon

BMW M3 Convertible

All dimensions of the technical drawings in millimetres. Luggage compartment capacity (VDA method): 430 litres for the BMW M3 Coupé, 450 litres for the BMW M3 Saloon and 210 – 350 litres for the BMW Convertible.

BMW Recycling.

Your BMW is the product of a comprehensive recycling concept. But what exactly does that mean in practice? It means that all the requirements of recycling are taken into account from the start, in the initial development of a BMW. One example is the choice of materials carefully selected to preserve resources and ensure efficient recycling compatible with the environment. Each BMW is designed and built for simple and economic recycling after its – long – running life. We have been collecting the know-how required for this purpose ever since 1994 at the unique BMW Recycling and Dismantling Centre (RDC) near Munich. At the same time the BMW Group is establishing a complete network of vehicle return and recycling facilities initially throughout Europe, focusing in the process on the highest standards of quality and environmental care typical of BMW. So please contact your BMW partner, who will be happy to advise you on all matters regarding the return of your end-of-life vehicle.

The models illustrated in this brochure show the specifications for the German market. In part, they include optional equipment and accessories not fitted as standard. According to the specific legal requirements of other markets, alterations in models, standard and optional equipment, as described in this brochure, may occur. For precise information on model features and the exact level of equipment, please contact your BMW partner. Subject to change in design and equipment.
