BENTLEY CONTINENTAL GTC SPEED 80-11 EDITION

The Bentley Continental GTC Speed 80-11 Edition possesses a more predatory character than the previous editions, with a 600 bhp engine, increased torque and a 200 mph capability. Situated just behind the front wheel arches on the exterior of the car, the Union Jack badge identifies the car as a unique edition.

Inspired by the Bentley Speed models of the 1920s, this limited edition of only 80 cars matches muscle with impressive armor—bright upper and lower grilles, 20-inch dark-tinted alloy wheels, Red Brake Calipers, and twin-rifled sports tailpipes. Lowered suspension gives the car even greater agility and handling dynamics, while the speed sensitive steering and a solid mounted front subframe make for more responsive handling and improved driver feedback.

The 80-11 Edition exemplifies Bentley's sporting pedigree while paying homage to its history of traditional craftsmanship and bespoke interiors. It's those extra touches that help the Speed 80-11 stand out from the crowd. The unique tread plates and ashtray lid badge remind passengers exiting and entering the car of its exclusivity. Diamond quilted seats are enhanced with Pillar Box Red contrasting stitching and eye-catching piping. Sumptuous wool carpets are exquisitely finished with contrast binding, while the Dark Aluminum Fascia and Piano Black Console complete the dynamic look.
