

BENTLEY MOTORS

CONTINENTAL GT SPEED LE MANS EDITION

This year marks the 90th anniversary of Le Mans 24 Hours, France's epic test of endurance. Bentley won the race five times between 1924 and 1930, securing its place in Le Mans legend.

The Le Mans Editions celebrate the marque's lasting ties to the race and honor the 10th anniversary of Bentley's historic win in 2003. Six distinctive specifications pay homage to Bentley's remarkable winning drivers and their unforgettable achievements behind the wheel.

To salute these significant milestones, 48 examples of each Le Mans Limited Edition model are being produced. Each car will have a unique Le Mans Edition numbered badge, Le Mans Edition clock

face, embroidered Le Mans badge adorning each headrest, tread plates with the limited edition name, unique Le Mans Edition wheels and specific interior veneers and exterior colors.

The iconic Continental GT Speed Le Mans Edition is powered by Bentley's renowned 6.0-litre W-12 producing 616 bhp and 590 lb-ft of torque available from 2,000 rpm for instantly accessible high performance. The GT Speed sprints to 60 mph in 4.0 seconds and is the fastest production Bentley ever with a top speed of 205 mph.
