"WE ONLY HAVE ONE
 FUTURE, AND IT WILL BE
 MADE OF OUR DREAMS."

—SOICHIRO HONDA

A dream is a view of the world not as it is, but as it could be. For 60 years, Honda has encouraged its associates to aim beyond what is currently possible. All for the purpose of progressing human mobility. This spirit has resulted in advances in environmental technology, like the hydrogen fuel cell FCX Clarity, that brings us closer to a future filled with blue skies. It guides us as we strive to exceed government

safety regulations and has led to industry-changing innovations on the ground, in the water, and, with the HondaJet,™ in the air. And it pushes us to use premier race circuits as testing grounds for our ideas. Moving forward, our minds are open to new ideas, no matter where they come from. Because you never know what will be until you discover what can be. dreams.honda.com
