Perfectly Attuned. Whatever Your Sensibilities.

UNWIND TO YOUR PERSONAL SOUNDTRACK

Thanks to its convenient in-dash CD changer, the Lincoln Soundmark® Audiophile® Sound System holds up to six of your favorite CDs at once. So you can load them up and take a relaxing musical journey any time you'd like. Standard on every Lincoln Town Car, this powerful system pushes 180 watts through nine speakers for a full-bodied audio adventure. Straightforward, easy-to-use controls make quick work of choosing a new track or calling up your favorite station.

CUSTOMIZE YOUR COMFORT ZONE

The driver and front passenger have special privileges when it comes to comfort in a Lincoln. In addition to the standard heated front seats, the Town Car driver and front passenger both have the ability to dial in their own specific temperature setting on the Dual-zone Electronic Automatic Temperature Control (DEATC). They are then free to sit back and relax as it's automatically maintained for them. Customized comfort. Lincoln luxury. Everywhere you go.

LINCOLN 2008 TOWN CAR

2008 Lincoln Town Car Signature Limited in Light French Silk Metallic. Shown with available equipment.

Born Leader. With a Secure State of Mind.

5 STARS IN ALL 5 CATEGORIES, 6 YEARS IN A ROW

Lincoln Town Car is the first automobile ever to receive the government's highest 5-Star crash test rating¹ in all five categories (driver frontal impact, passenger frontal impact, front-seat side impact, rear-seat side impact and rollover resistance) — an achievement it has garnered for six years in a row (2003–2008). In the event of certain frontal impacts, Town Car responds quickly by engaging the Personal Safety System[®] to control safety belt tension as well as the energy deployment level of the dual-stage front airbags. In certain side-impact collisions, Town Car's front-seat side airbags for the driver and right-front passenger, and the side-intrusion door beams located in all four doors, enhance occupant safety.

MANEUVERING MASTERY

Every Lincoln Town Car is equipped with 4-wheel disc brakes and an Anti-lock Brake System (ABS). During hard braking, ABS electronically "pumps" the brakes multiple times per second to provide greater steering control precisely when you need it most. All-Speed Traction Control improves traction on loose or slippery surfaces by using a combination of braking and engine control to reduce wheel spin and help you maintain your composure.

¹Star ratings are part of the U.S. Department of Transportation's Safercar.gov program (www.safercar.gov).
