

MC Sport Line

The MC Sport Line customization program focuses on the racing vocation of the Maserati.

Created to emphasise the sporting DNA of the Maserati cars, the "MC Sport Line" is for customers who wish to express their passion for sports cars with a dynamic look, and want the very latest technical solutions to enhance their driving pleasure. The "MC Sport Line" range was developed with the help of the Maserati Corse racing team's technicians on the basis of their competition experience.

The designer of the Maserati Style Centre were also inspired by the world of racing: it is no coincidence that all the components are made of carbon fibre, which has always been a favourite with racing fans.

Customers can select options from the "MC Sport Line" catalogue to add personalised sporting features to both the exteriors and the interiors of the Maserati GranTurismo cars, and on 4.7 versions the engineering systems can also be modified to satisfy the most demanding drivers.

Discover all the personalisation available with the MC Sport Line in the e-brochure!
