DESIGN

Some cars are built. Some are engineered. A Jaguar is created. A rare blend of art and performance, science and beauty. XK is one of the most technologically advanced and luxurious cars ever made.

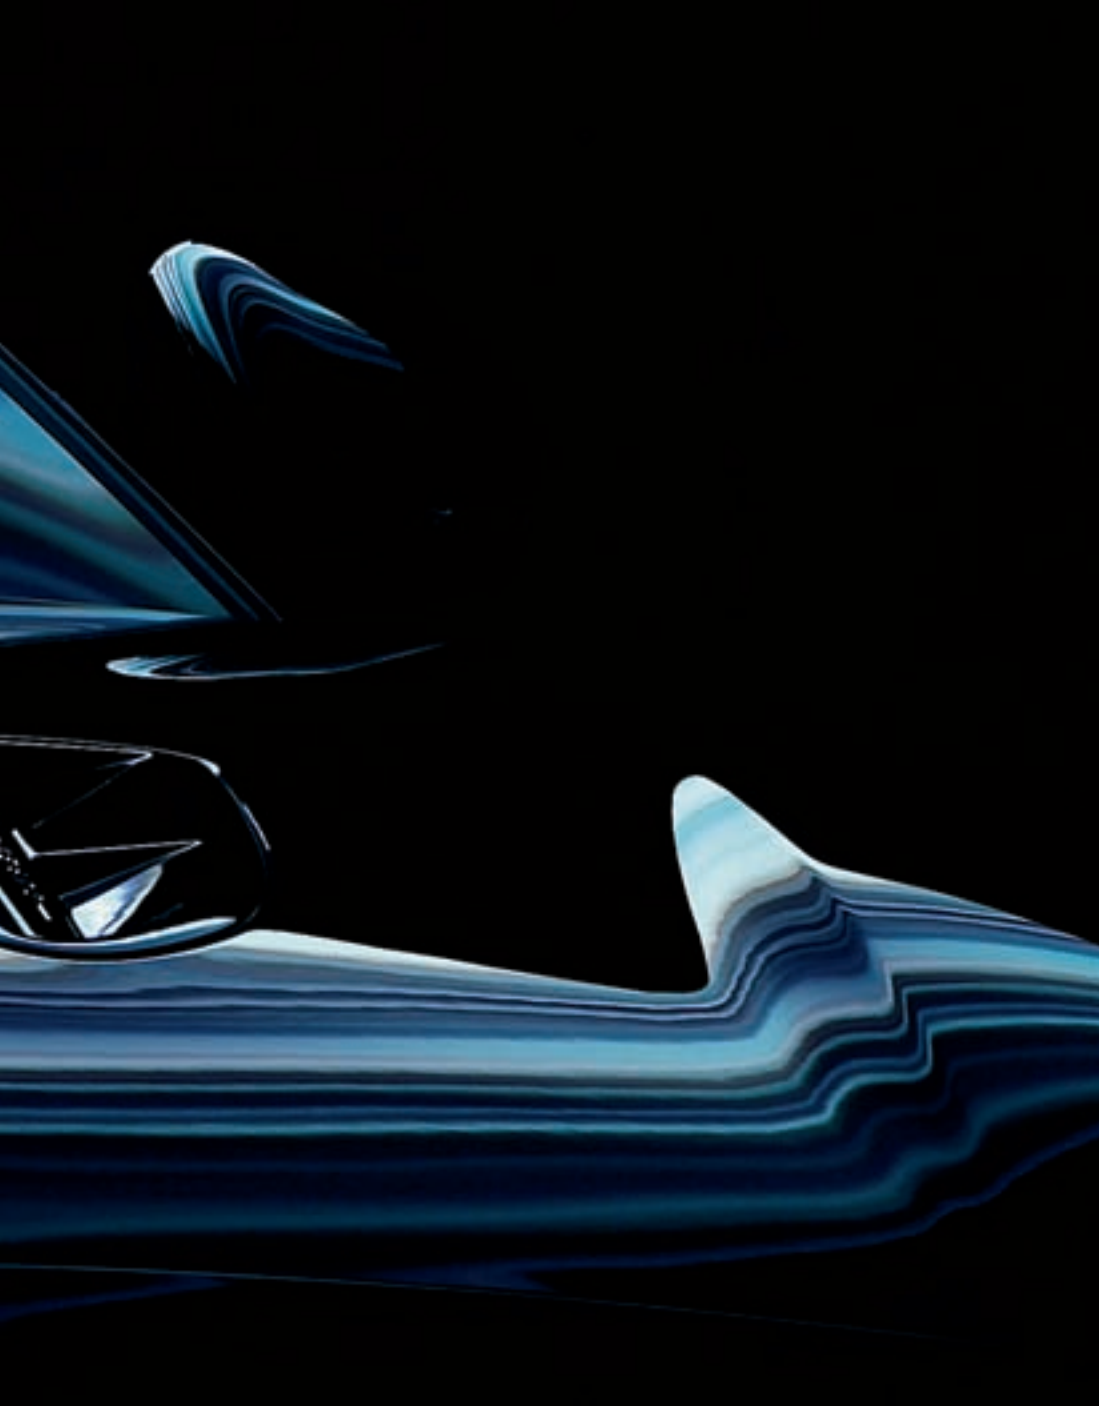

Even standing still, the new XK looks fast. Whether you choose Coupe or Convertible with either the new 5.0L naturally aspirated V8 or thrilling new 510 hp supercharged engine, the XK's athletic lines and muscular rear haunches exude immense visual energy. Fast has never looked this seductive.

Visual energy is created by an aluminum skin stretched taut over the light, yet strong and immensely rigid body structure that gives the new XK its remarkable agility. It is the energy that comes from the XK's purity of design, with sculpted surfaces created to cut the air with aerodynamic efficiency, delivering the visual promise of breathtaking performance and driving excitement. It is the purity that comes from the XK's exquisite, precision detailing: complex mesh surfacing for the front grille openings, bold and technically-advanced headlights or elegant and distinctive side power vents.

And to reflect the heightened performance delivered by powerful and more efficient new engines, the XK's lines have been redrawn to be even more assertive. The sculpted nose now features a dramatic new front bumper design with chrome detailed air intakes, heightening the look of power and performance. This is the beauty of a car that so effortlessly fulfils the dual roles of sophisticated, luxurious grand tourer and exhilarating, dynamic sports car. This is the new XK. This is the new Jaguar.

TO LIFE.

PERFORMANCE

Beneath its aluminum skin, the new XK's racing heart beats faster and stronger, courtesy of two all new advanced and highly efficient 5.0L AJ-V8 GEN III engines.

It is a combination of aerospace-derived lightness, greater power and engineering excellence that delivers even more exhilarating performance and efficiency. While the technology is complex, the reason we pioneered aerospace all-aluminum construction is simple: less weight, coupled with high strength and rigidity, is the key to making a truly great sports car. In fact the XK's all-aluminum monocoque bodyshell is fundamental to the way it performs. When compared with a conventional steel body, it delivers faster acceleration, more precise handling, shorter stopping distances and greater fuel efficiency.

And now, with the introduction of two all new 5.0L direct injection V8 engines offering substantial increases in power and torque, performance is shifted from merely exceptional to truly extraordinary. Jaguar's new naturally aspirated 5.0L V8 powers the XK model. It produces 385 hp – an impressive 28 percent increase versus the previous-generation XK V8 engine – and delivers acceleration from 0-60 mph in just 5.2 seconds.*

The high performance XKR is powered by the new supercharged 5.0L V8. This remarkable engine delivers a muscular 510 hp – a 21 percent increase over its predecessor – and can take the XKR from 0-60 mph in a breathtaking 4.6 seconds. Yet our engineers have been able to deliver these dramatic increases in power, and corresponding increases in torque, without materially affecting fuel efficiency or exhaust emissions.

The responsiveness of our new engines is matched only by the smoother, more refined, more eager performance of the all new 6HP28 electronically controlled, automatic transmission. This lightning-fast 6-speed represents the latest in transmission technology, incorporating innovative features such as a fully adaptive shift system to smooth out and refine the shift quality, enhancing the driving experience. For maximum driver involvement and total control, gears can be selected manually using paddle shifters mounted behind the steering wheel.

It is a driving experience designed to be exceptional.

Always follow local speed limits. This speed is only to be attempted by professional drivers on a closed course.
*Figure applicable to XK Coupe. Convertible 0-60 mph achieved in 5.3 seconds.

CRAFTSMANSHIP

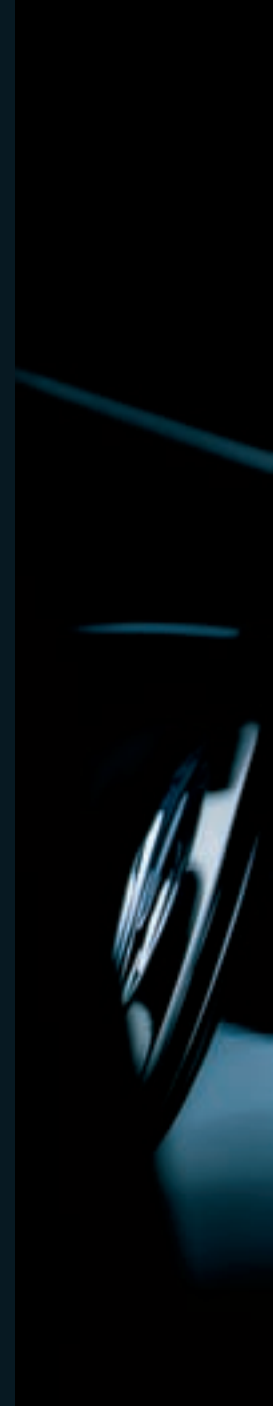

With an interior rich in craftsmanship, style and technical innovation, the new XK takes the sports car experience to a thrilling new level.

Craftsmanship takes a modern turn in the XK. You see it in the elegant center console featuring the precision-made JaguarDrive Selector™ with its rotary shifter. Press the pulsing START button on the new console, and this cylindrical cast alloy shift control rises up into the palm of your hand. To select a gear, simply twist.

It replaces the traditional gear lever with a sleek, space-efficient, ergonomic design that is compact, elegant and beautifully crafted. A bold example of advanced Jaguar design. Craftsmanship in the new XK also comes in the form of gorgeous wood and technical finishes; like the modern, straight-grained Figured Ebony veneer or Knurled Aluminum finish for the XK, or the stunning Dark Oak veneer or Dark Mesh Aluminum finish for the XKR.

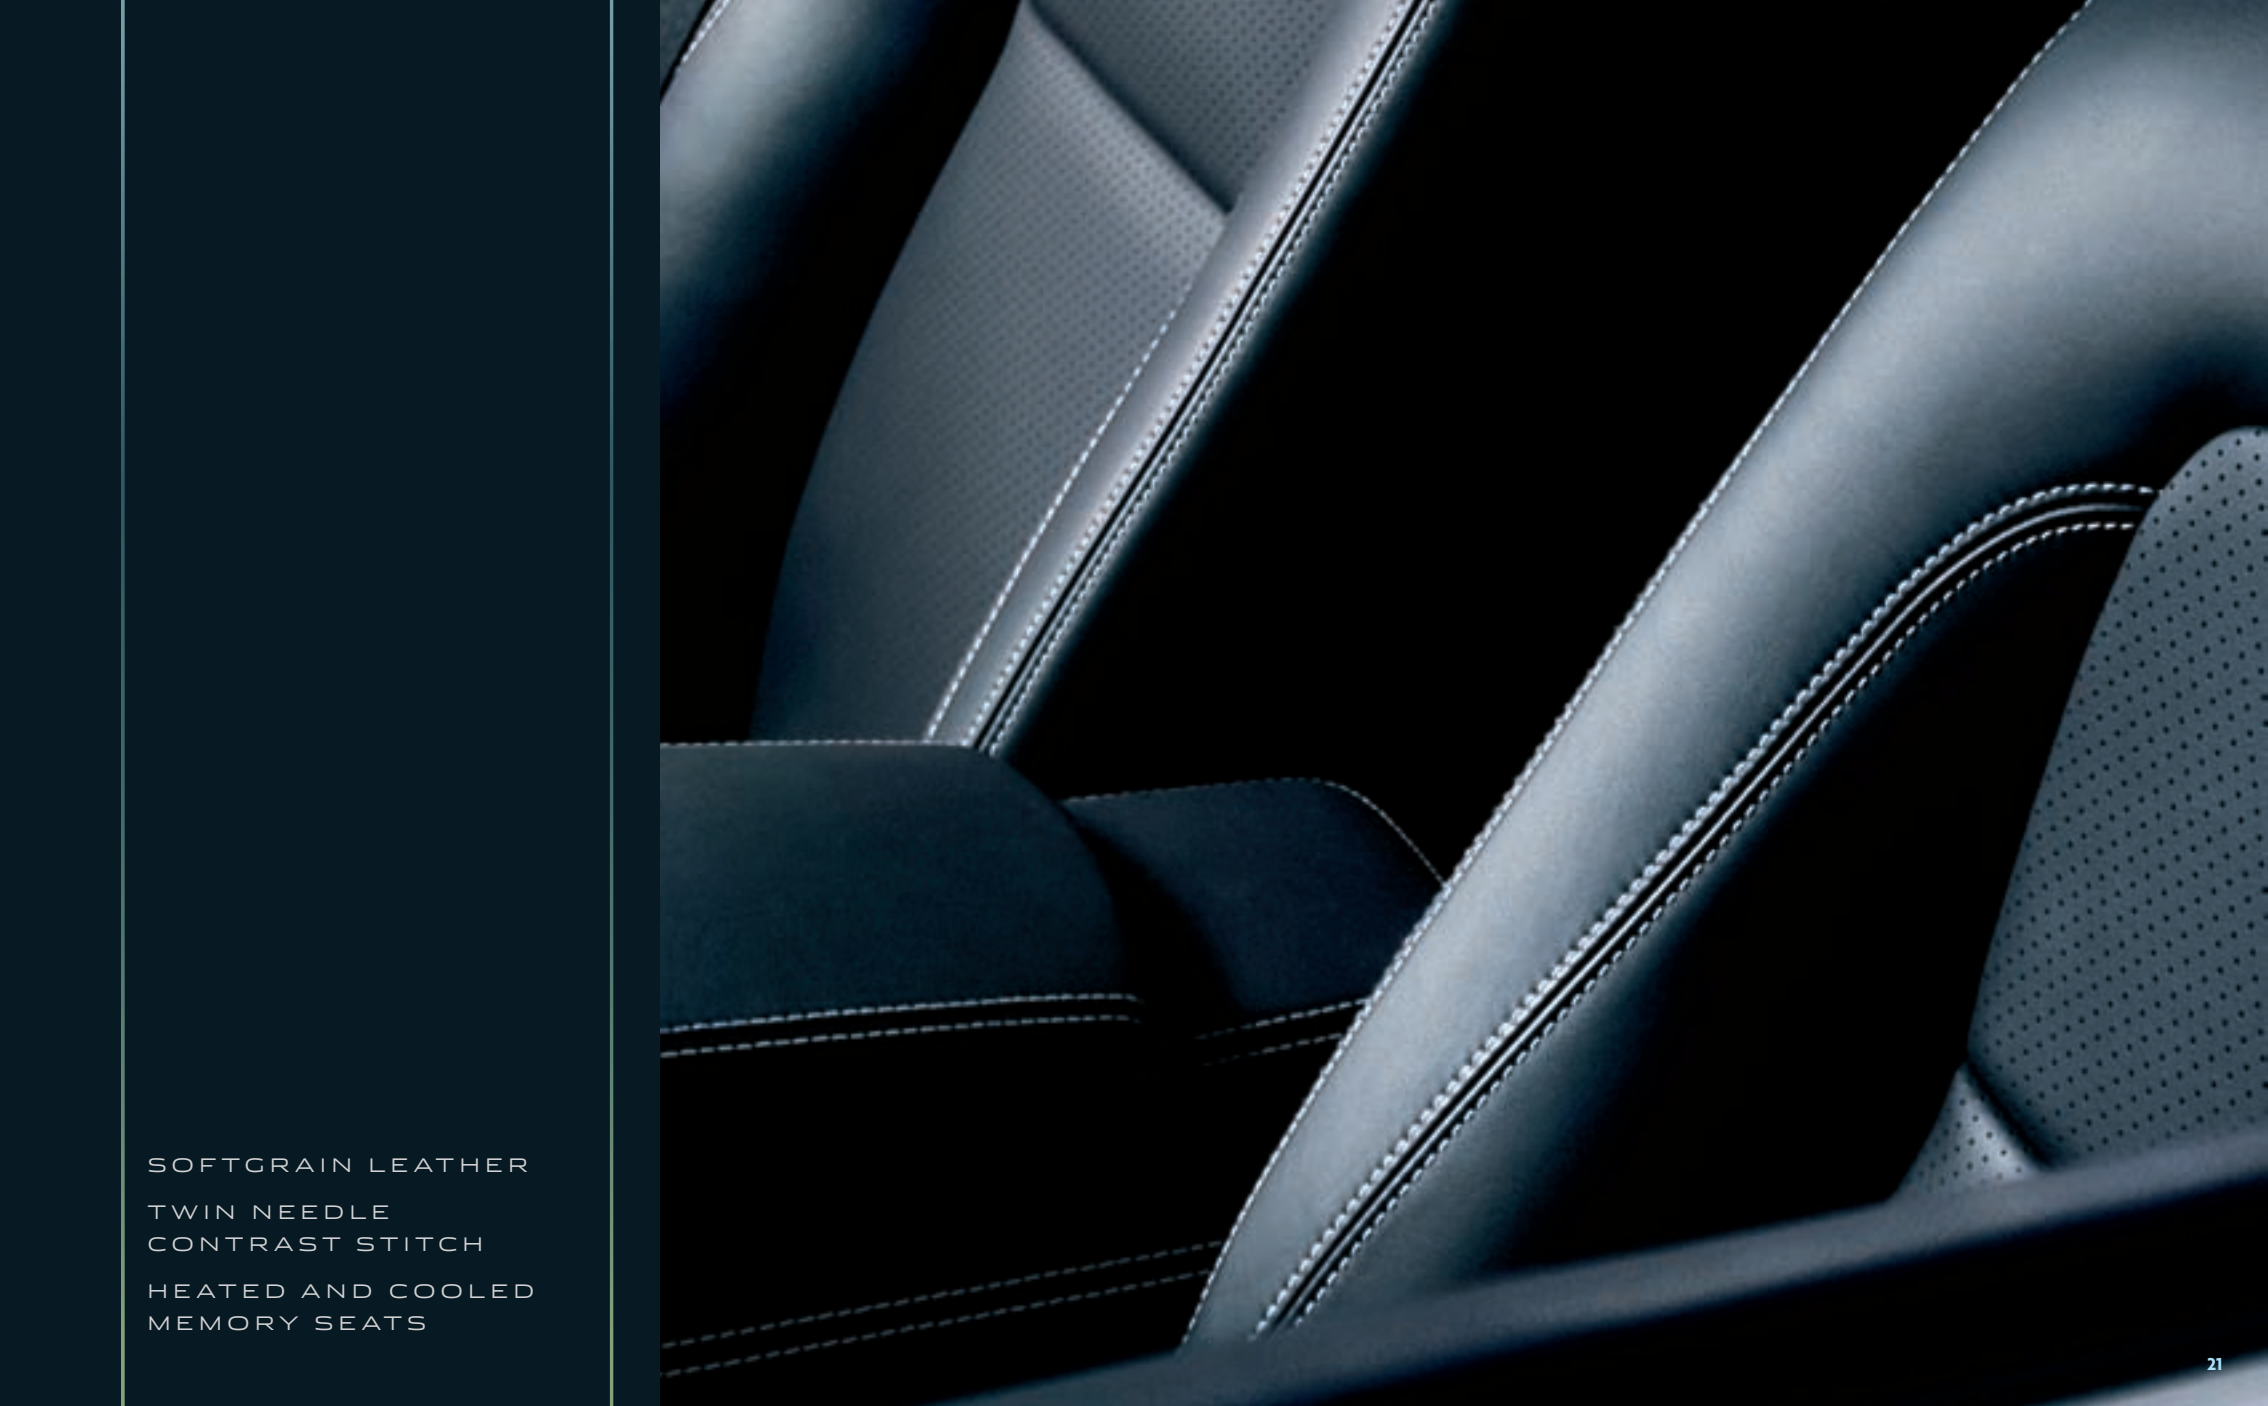

And craftsmanship with bespoke luxury reaches a new pinnacle. The XK and XKR feature rich, twin-stitched Softgrain leather for the seats, upper fascia and doors, along with warm Jaguar Suedecloth Premium Headlining and premium carpet mats. In convertible models, there is flawless craftsmanship in the sophisticated fabric roof. Triple-lined to deliver hushed, top-up cruising, it can be powered up or down in less than 18 seconds. And when lowered, it retracts completely into the bodywork beneath a rigid tonneau cover, so as not to compromise the XK's seductive lines.

We describe this combination of exquisite craftsmanship, luxurious finishes and technical excellence one way: Jaguar sporting luxury.

TECHNOLOGY

Intuitive design is about using advanced technologies to empower the driver, not to over-power. It is about creating a driving experience that excites and exhilarates.

We believe the driver should be left to enjoy the drive and not worry about mastering complex technologies or illogical controls. It is why the new XK features a crystal-clear 7-inch Touch-screen that sets the benchmark for simple, intuitive operation. Its menu-based system lets you control many of the car's key interior functions – climate control, entertainment, satellite navigation, Bluetooth® telephone connectivity, even the settings on your iPod®. To make a selection, simply touch the screen.

It is why the XK's new 6-speed automatic transmission is designed to provide continuous adaptation of its shift changes to suit your driving style; more responsive when you are pressing on, more relaxed when you are not. And a simple twist of the JaguarDrive Selector™ is all that is needed to engage JaguarDrive Control™ and bring out the true sports car character of the XK.

In Dynamic Mode, the system will hold the lower gears longer, kick down more readily, firm-up the suspension, and send your pulse racing. JaguarDrive Control™ even offers a Winter Mode to inspire driver confidence in slippery or adverse road conditions. And to heighten the thrill of driving the new XK even further, the remarkable Adaptive Dynamics system monitors body movement 100 times a second, adjusting damping to deliver legendary Jaguar ride comfort coupled with pure sports car handling.

As you would expect, the supercharged XKR takes cornering ability to an even higher level. Its new, fully-automatic, electronic Active Differential Control provides enhanced traction to sharpen the car's agility through curves. Illuminating the XKR's path through those curves is Active Front Lighting* which points the car's Bi-Xenon™ headlights in the direction you are turning.

This is Jaguar technology making the new XK easy to enjoy, truly exhilarating to drive.

iPod is a trademark of Apple Computer Inc. registered in the US and other countries.

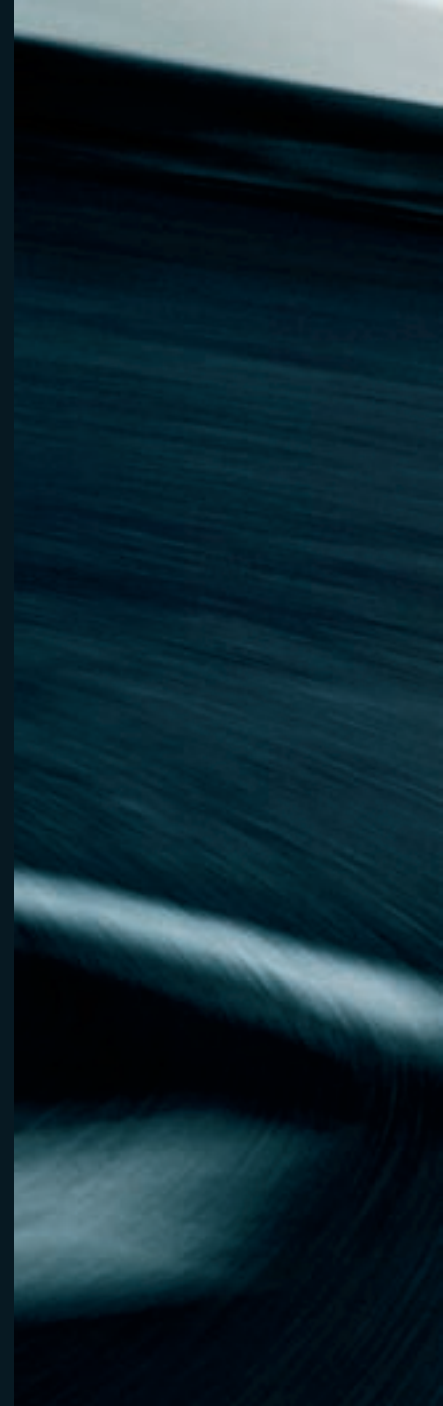

*Active Front Lighting is optional on XK.

● Standard ○ Option NCO No Cost Option — Not available

⁽¹⁾A special charge will be added if non-standard exterior/interior combinations are chosen.

XK Softgrain Sports Seats (16/16 way)

XK Softgrain luxury sport seats with contrast stitch (16/16 way) including driver's and passenger's electric adjustment, variable manual headrest, variable heated and cooled, 4 way power lumbar, driver and passenger memory, front cushion length adjust, variable bolster and perforated (front and rear).

XK Interior Theme

Softgrain contrast stitch leather on steering wheel, doors, rear side panels, instrument panel and center console with twin stitch detail. Nubuck edged premium carpet mat set with Jaguar script and logo, and Jaguar Suedecloth Premium Headlining.

XKR Softgrain Sports Seats (16/16 way)

XKR Softgrain luxury sport seats with contrast stitch and R branding (16/16 way) including driver's and passenger's electric adjustment, variable manual headrest, variable heated and cooled, includes 4 way power lumbar, driver and passenger memory, front cushion length adjust, variable bolster and perforated (front and rear).

R Interior Theme

Softgrain contrast stitch leather on steering wheel, doors, rear side panels, instrument panel and center console with twin stitch detail. Nubuck edged premium carpet mat set with Jaguar script and logo, and Jaguar Suedecloth Premium Headlining, R logo on headrest and steering wheel. Instrument cluster dials with red pointer and Supercharged motif.

Jaguar Smart Key System™

With the Jaguar Smart Key in your pocket or bag, the car automatically unlocks as you pull the door handle. Simply push the ignition button to start the engine. Upon leaving, simply press a button on the door handle to lock the car or use the Jaguar Smart Key.

JaguarDrive Control™

Interacts with the DSC (Dynamic Stability Control) engine and transmission management systems to change the characteristics of engine mapping, transmission shifts and brake interventions. It offers different modes selectable by a button to optimize the vehicle response depending on driving conditions and style.

Winter Mode

Softens the responsiveness of the engine and modifies the gear change strategy to maintain optimum traction in slippery or adverse road conditions. The vehicle performs in a more gentle and controlled manner, allowing more confident progress. When active, Winter Mode selects 2nd gear for pulling away on level ground (no incline).

Dynamic Mode

Optimizes vehicle systems to deliver a more involving driving experience. When selected, Trac DSC is automatically engaged, and engine torque delivery characteristics and gear shift points are modified to further improve responsiveness. When selected while the transmission is in full manual mode, transmission up-shifts are fully controlled by the driver, with no automatic up-shift when the rev limit is reached.

Roll-Over Protection System

Two automatically deployable hoops which are activated in a roll-over event (convertible only).

Navigation system⁽¹⁾

7 inch Touch-screen display with DVD mapping, zip code entry and destination entry.

Bowers & Wilkins 525W surround sound system

Based on the Jaguar 525W surround sound system with 120 Watt per channel (525 Watt total power output), dedicated Bowers & Wilkins speaker system, high output, low distortion Kevlar® mid-range speakers, specially designed aluminum dome tweeters and unique amplifier.

Windows Media Audio (WMA) and MP3 compatibility

Enables the CD player to play CDs which contain WMA and MP3 files.

Bluetooth® telephone connectivity⁽²⁾

A Bluetooth® equipped Jaguar enables hands-free use of your mobile phone at any time when the phone is in the car. Bluetooth® is compatible with a selected range of mobile phones from a number of different manufacturers - ask your dealer or visit jaguarusa.com for more details.

GLOSSARY

Portable Audio Interface⁽³⁾

Allows the connection of an iPod®, MP3 player or a USB Mass Storage Device to the in-car sound system and control via the 7 inch Touch-screen.

7 inch full color Touch-screen

Display with controls for audio, climate control, Bluetooth® telephone connectivity and navigation. Includes clock.

Jaguar Sequential Shift™

Provides the choice of Drive, Sport Automatic or Manual gearshift modes, with one touch paddles mounted behind the steering wheel to control gear changes up and down manually.

Adaptive Dynamics

Provides the optimum balance between low speed ride comfort and high speed handling precision, analyzing body movement, steering and road wheel inputs up to 100 times a second and continuously adjusting the suspension settings through electronically controlled dampers.

Active Differential Control

An electronically controlled, active differential with Handling Functionality that limits the slip between the rear wheels to optimize traction and stability in different driving conditions, working in harmony with the Traction, ABS and DSC systems.

DSC (Dynamic Stability Control) with Trac DSC mode

Intervenes in demanding driving situations by applying braking to individual wheels and reducing engine torque.

Active Front Lighting with dynamic pivoting headlights

Sensors react to the car's speed and steering input, and the system can deflect the headlight beams by up to 15 degrees casting light deeper into corners, and giving added confidence at night.

Automatic climate control

With humidity control, air filtration and dual temperature control for driver and front passenger and automatic air circulation with 5 settings.

The complete Jaguar experience. Buying a Jaguar may be thrilling, but it is the connection with car and company during the ownership period following, that will impress you most. This is the result of the very intentional support provided to Jaguar drivers. As one of these favored individuals, here are things you can expect:

TOTAL CARE

Seamless support for your new XK, so you can relax and drive. A combination of vehicle warranty, paint and corrosion protection and Jaguar Assistance.

WARRANTY

Jaguar Cars offers a comprehensive, 4-year/50,000-mile New Vehicle Limited Warranty⁽¹⁾ as well as a 6-year/unlimited mileage Corrosion Protection Limited Warranty.

SERVICE & ASSURANCE

When it comes to service, Jaguar's commitment to beautiful design and heart-stopping performance is matched only by its commitment to the customer. Simply bring your Jaguar to an authorized Jaguar dealer, and the first required maintenance will be performed at no charge at 15,000 miles - 5.0L engines; 10,000 miles - 4.2L engines or 12 months, whichever comes first. Please refer to your vehicle's scheduled maintenance program for more information.

IMPORTANT NOTICE

Jaguar Cars is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. While every effort is made to produce up-to-date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and dealers are not agents of Jaguar Cars and have absolutely no authority to bind Jaguar Cars by any express or implied undertaking or representation. Illustrations in this brochure may include optional extras.

Comparisons are based on manufacturer's own data and testing.

ENVIRONMENTAL NOTICE

Jaguar Cars has a vision of being amongst the world's leading companies in demonstrating progress towards sustainability. We aim to do this by contributing to a better quality of life, with corporate citizenship at the very heart of our company, and by reducing our environmental footprint through innovative design and manufacturing, minimizing resource and energy use. Environmental responsibility is a core value in Jaguar, and it is our policy to continually improve our environmental standards in all areas of business activity.

This brochure is produced using paper stock, which contains 10% recycled post consumer waste and is in compliance with The Forest Stewardship Council (FSC). FSC certification promotes environmentally appropriate, socially beneficial and economically viable management of the world's forests.
