

2008 HYUNDAI **ENTOURAGE**

Challenge it.

THE TRUTH IS, finding a car that's right for you isn't that easy. You've got cars that over promise and under deliver. Cars that assume you've won the lottery and desperately want to part with the proceeds. And value-priced cars that, unfortunately, drive that way.

Fortunately, there is one company that understands and embraces the concept of what people really want in a car. That company is Hyundai.

We make smart cars for smart people. Cars that routinely get 5-star crash test ratings. Cars where the number of safety features takes precedence over the number of cupholders. And cars that put quality exactly where it belongs – first and foremost.

The Hyundai Entourage is the Winner of Strategic Vision's Total Quality Award™ for best Minivan Ownership Experience.¹

We also believe in a warranty that lasts twice as long as the average car loan. Not to mention the average car warranty.

We steadfastly adhere to the proposition that premium amenities are not to be reserved exclusively for the wealthy. That beautiful design shouldn't necessitate a second

mortgage. And that stimulating performance and handling needn't come from engineers with names like Hans and Giuseppe.

In other words, we believe in cars that don't insult your intelligence, but rather, respect it.

Like the safe, versatile Entourage. With a 5-star crash test rating, seating for seven, six airbags and features galore, it's no wonder automotive experts everywhere praise the Entourage every chance they get. For example, the 2007 Entourage was named one of the 2007 "Best Cars for Families" by *Parents* magazine and AAA.

Now that we've whetted your appetite, feel free to turn the page and get better acquainted.

— Universal Automotive Truths —

**WITH AGE COMES THE MINIVAN.
MIGHT AS WELL BE THE
SAFEST ONE EVER TESTED.**

WE ALL GET OLDER, and when we do, the responsibilities multiply. Which is reason enough to consider the Hyundai Entourage, especially when you take into account that it's the highest-rated minivan ever tested by the Insurance Institute for Highway Safety.¹ Must be the Electronic Stability Control, six airbags, 4-wheel disc brakes with ABS and active front head restraints. Feeling safe. Now that's something you can appreciate at any age.

LIMITED IN GALAXY BLACK AND STARDUST SILVER

Family Oriented, Just Like You

WE EAT, SLEEP AND DREAM MINIVAN FEATURES. MUCH TO OUR FAMILIES' CHAGRIN.

BUT MUCH TO THE DELIGHT OF YOURS. We packed the Entourage with plenty of features that make the most important job in the world—being a parent—just a little easier. For starters, we put in power-sliding side doors, a power tailgate and backup warning system to help you seat passengers quicker, load cargo effortlessly and back out of the driveway without worry. All in all, the Entourage is designed to help you perform the tasks that parenthood requires easier than you've ever imagined.

Convenient Features

BACKUP WARNING SYSTEM

Ultrasonic sensors can detect when certain objects are behind you, and alert you with a graduated series of beeps, making maneuvering in reverse easier than ever.

CONVERSATION MIRROR

Your kids may think you have eyes in the back of your head. This convex mirror folds down from the overhead console so you can view all rear passengers at a quick glance.

AUTOMATIC TEMPERATURE CONTROL

Some like it hot. Some like it cold. And don't forget the rear seat. Keep everyone feeling just right thanks to dual front automatic temperature control and three air-conditioned zones.

DVD ENTERTAINMENT SYSTEM

This DVD entertainment system features a flip-down, 8-inch screen, remote control and two wireless headphones. It'll give the local cineplex a run for its money.

REMOTE KEYLESS ENTRY

This remote lets you raise the tailgate, open the power-sliding side doors, and lock or unlock the doors. Especially helpful when you've got three kids, five bags of groceries and just two hands.

IN-DASH 6-DISC CD CHANGER

Choosing music to make everyone happy might not be easy, but switching CDs is. This CD changer can select from 6 discs with the push of a button. It even plays CDs with MP3 music files.

INTEGRATED MEMORY SYSTEM

Isn't it nice to be remembered? With the touch of a button, your favorite preset power-seat position and settings for foot pedals and side mirrors are instantly recalled.

BLUETOOTH® WIRELESS TECHNOLOGY

Located in the upper console, this hands-free phone system features a built-in microphone and speaker for perfect clarity, and several unique cell phones can be recognized.¹

POWER-ADJUSTABLE FOOT PEDALS

With this convenient feature, you can adjust the accelerator and brake pedals to your foot position, giving you unprecedented ability to customize the ergonomics of your cabin.

HEATED FRONT SEATS

Heated front seats make taking the kids to school on a chilly morning a pleasure. Plus, they're power adjustable and feature variable temperature settings for maximum comfort.

ROOM FOR YOUR LIFE

The Entourage's roomy 172.3 cubic feet of interior space easily fits seven passengers, or plenty of cargo, and pretty much anything in between. Hyundai Hideaway™ 3rd-row seats provide a multitude of seating and storage configurations. They quickly fold flush into the floor or can split 60/40, so fitting everything in that life brings your way is never a problem.

Confident Performance

IT'S A SENSIBLE CHOICE, NOT A BORING ONE.

JUST BECAUSE YOU NEED A MINIVAN, doesn't mean you've suddenly lost your love of driving, and nobody enjoys wrestling with the controls of a vehicle that handles like a rhinoceros with a missing leg. That's why we designed the Entourage to accelerate and handle more like a car and less like a van (or a rhino). We did this by incorporating a powerful V6 engine, a fully independent suspension and a smooth-shifting automatic transmission. So go ahead and take it for a spin, you may find yourself enjoying the drive, whether you're hauling the kids or not.

AUTOMATIC TRANSMISSION

A silky-smooth 5-speed automatic transmission delivers smooth shifts and quiet cruising that's a pleasure to experience. Plus, SHIFTRONIC® gives you control over gear selection when you want it.

V6 POWER

With more horsepower than any of its domestic competitors, the Entourage's 3.8-liter V6 engine delivers 250 horsepower and 253 lb.-ft. of torque for acceleration you can count on.

4-WHEEL INDEPENDENT SUSPENSION

Front MacPherson struts and a multi-link rear suspension with front and rear stabilizer bars give you a smooth, controlled ride while helping to minimize body roll.

REST ASSURED, IN OUR QUEST FOR CONVENIENCE, we didn't forget about comfort. So the Entourage offers an extra-long wheelbase for an expansive cabin that gives your little MVPs plenty of room to stretch out after the game, intuitive ergonomics that put everything in just the right place, and exceptionally comfortable heated front seats. We also offer some other pleasant surprises such as a power sunroof, multi-function trip computer and leather-trimmed interior. Because contented parents are as important as contented kids.

SAFELY AVOID THE UNEXPECTED THINGS THAT LIFE (OR THE NEIGHBOR'S KID) THROWS YOUR WAY.

IF YOU CREATED YOUR OWN CAR COMPANY, you wouldn't make safety an option. Neither did we. So before you load the Entourage full of passengers, we've already filled it with cutting-edge active safety features that work dynamically with input from you and the road to help prevent an accident. Which is why the Entourage is an ideal choice to help protect you, your passengers and your peace of mind. Just like you'd expect from your own car company.

ELECTRONIC STABILITY CONTROL

An advanced, electronically-controlled system reads data from sensors throughout the vehicle. Input is relayed to a sophisticated computer, and is processed using proven algorithms, which enables ESC to react instantaneously to input from you and the road.¹

TRACTION CONTROL SYSTEM

Wet pavement may have met its match. The advanced Traction Control System senses unexpected wheelspin while accelerating and automatically applies the appropriate combination of brakes and throttle to route power to the tire with the most traction.²

ANTI-LOCK BRAKING SYSTEM

ABS prevents wheel lock-up and helps maintain steering control, even during emergency braking situations, by rapidly pulsing the brakes. So you can control steering to successfully maneuver around objects ahead of you.

ELECTRONIC BRAKE-FORCE DISTRIBUTION

You never know where you'll be when you need to stop quickly—from a dirt road to a major thoroughfare. EBD uses a network of sensors to provide the appropriate braking pressure at each wheel for maximum braking performance.

BRAKE ASSIST

Statistics show that drivers frequently don't brake forcefully enough in an emergency situation. Brake Assist actually senses when you are in a panic stop and immediately applies the maximum braking pressure to help you stop in a shorter distance.

¹Electronic Stability Control (ESC) cannot control your vehicle's stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner's Manual for details.
²The Traction Control System (TCS) is meant to enhance conscientious driving habits and is not a substitute for safe driving practices.

NHTSA 5-STAR CRASH RATING

Entourage has received the U.S. government's highest crash rating of 5 stars for both front- and side-impact collisions.¹

ON TOP OF OUR ACTIVE SAFETY FEATURES, the Entourage is equipped with a host of standard passive safety features as well. Because we take the task of keeping you and your passengers safe just as seriously as you do. From an advanced airbag system to rear child-seat anchors, our commitment to safety is clear in every detail. So, should an accident occur, you can rest assured that you're surrounded by state-of-the-art safety engineering and numerous features that have all been proven to help minimize the effects of it.

STRUCTURAL INTEGRITY

You wouldn't build a house on a shaky foundation. Same goes for cars. We built the Entourage with a reinforced unibody construction of high-tensile steel to effectively absorb collision energy.

TIRE PRESSURE MONITORING SYSTEM

Each wheel is equipped with an air-pressure sensor located at the valve stem. In the event that any tire reaches a specified low air pressure, a warning light will alert you.²

SIX AIRBAGS STANDARD

When it comes to airbags, there truly is safety in numbers. Our advanced dual front airbags with an Occupant Classification System, front side-impact airbags and side-curtain airbags³ play a big part in Entourage's NHTSA 5-star crash test rating.

SEATBELT PRETENSIONERS

Pretensioners tighten safety belts in certain accidents to reduce front occupants' forward movement. Then, force limiters release slack to limit load across the body and help minimize injury.

ACTIVE FRONT HEAD RESTRAINTS

Whiplash is one of the most common injuries in a rear collision. With this feature, the head restraint moves forward and up, which reduces the likelihood of neck injury.

¹Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov). 2007 model tested with standard side-impact airbags (SABs). ²TPMS is not a substitute for proper maintenance. See Owner's Manual for details. ³The Supplemental Restraint System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side-impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which should be worn at all times. Children under the age of 13 should be restrained securely in the rear seat. NEVER place a rear-facing child seat in the front seat of a vehicle that has a passenger-side airbag.

IT'S DIFFICULT TO PREDICT THE FUTURE. UNLESS YOU HAPPEN TO BE DESIGNING IT.

IT TAKES A WORLD OF PEOPLE TO MAKE A HYUNDAI. From our R&D Center in South Korea, where we conduct predesign studies, prototyping, full-scale aerodynamics analysis, crash testing and test driving. To Alabama and our \$1.1 billion state-of-the-art manufacturing plant. To Michigan and our engineering center. To our Southern California design facility, where we utilize the world's most advanced visualization, graphics and clay-modeling technologies. To our environmental technology research center in Seoul. Together, these facilities ensure that every vehicle we build is at the forefront of automotive technology.

WE'RE VERY HANDS ON

We hand check nuts, bolts, cables, wiring and power components before any Hyundai leaves the plant. Then every vehicle is road tested to eliminate squeaks and rattles that can't be detected on the factory floor.

PERFECTION IS OUR OBSESSION

For example, this door hinge used to look a little different. But our engineers noticed that the old design was adding a minute amount of wind noise to the vehicle. So they redesigned it. Now it adds none at all.

YOU CAN NEVER BE TOO SAFE

Our vehicles' excellent safety ratings are the result of thousands of hours of simulations in state-of-the-art safety testing facilities. Is destroying millions of dollars worth of automobiles worth it? Absolutely.

PROVEN BEFORE IT'S DRIVEN

At our California Proving Grounds, every new design is tested in real-world situations. This includes a 6.4-mile track to evaluate engine and road noise, and a 3.3-mile road course that simulates America's highways.

MEET OUR QUALITY INSPECTOR

An army of 250 robots, equipped with optical sensors far more sensitive than the human eye, inspects every vehicle for quality welds and proper fit. This ensures tight seams and seals, as well as perfect alignment.

WE TREAT OUR BODIES LIKE TEMPLES

Prior to painting, the body of each Hyundai is electrically charged, then immersed in a primer bath with an opposite charge. This ensures even hidden surfaces are completely coated for incredible corrosion resistance.

THE MYSTERIOUS 2.3 MILES

Every new Hyundai that comes out of our Alabama plant has 2.3 miles on the odometer. That's because each one is road tested on our test track to ensure every vehicle is working perfectly.

TESTED TO THE EXTREMES

From the scorching heat of Death Valley, Calif., to the frozen tundra of central Canada, our cars are tested in the most extreme conditions. This ensures their performance never wavers, no matter what life throws your way.

America's Best Warranty

A FIVE-YEAR WARRANTY SAYS A LOT ABOUT THE CAR. A TEN-YEAR WARRANTY SAYS A LOT ABOUT THE CAR COMPANY.

IT SAYS THAT WE STAND BEHIND OUR VEHICLES with a warranty matched by no other automaker in the country.¹ It says your new Hyundai's powertrain may be covered until the year 2018. (Just think about that for a minute.) But above all, it says that we build a vehicle that you can rely on. That as a company, we're committed to your satisfaction, long after you leave the dealership and your car is bought and paid for. And that's as refreshing now as it will be in a decade.

ENTOURAGE GLS

STANDARD FEATURES INCLUDE:

- 3.8-liter, 24-valve, DOHC V6 engine with CVVT
- 5-speed automatic transmission with SHIFTRONIC®
- Electronic Stability Control
- Traction Control System
- Anti-lock Braking System, Electronic Brake-force Distribution, Brake Assist
- Advanced dual front airbags with Occupant Classification System, front side-impact airbags, side-curtain airbags
- Active front head restraints
- LATCH child-seat-attachment system
- Tire Pressure Monitoring System
- 16-inch steel wheels with full wheel covers
- Dual power side mirrors
- Dual manual-sliding side doors with power windows
- Air conditioning with tri-zone ventilation and 2nd-row controls
- 172-watt AM/FM/CD audio system with six speakers
- Premium cloth seats
- Multi-adjustable front and 2nd-row captain's chairs with armrests
- Hyundai Hideaway™ 3rd-row 60/40 split fold-flat seats
- Tilt steering wheel
- Cruise control
- Remote keyless entry system with alarm
- Conversation mirror
- Windshield wiper de-icer

ENTOURAGE LIMITED

INCLUDES ALL STANDARD GLS FEATURES PLUS:

- Leather seating surfaces
- 660-watt Infinity® Logic 7® Surround Sound system with 13 speakers
- In-dash 6-disc CD/MP3 changer
- Dual front automatic temperature control
- Dual power-sliding side doors
- Power tailgate
- Backup warning system
- Automatic headlights
- Front fog lights
- Dual heated power side mirrors
- 17-inch, 7-spoke alloy wheels with P235/60R tires
- 8-way power driver seat with lumbar support
- Heated front seats
- Steering-wheel-mounted audio controls
- Leather-accented steering wheel and shift knob
- Solar control glass
- Power rear quarter glass
- Multi-function trip computer
- Chrome exterior and interior door handles
- Chrome-accented rear garnish
- Woodgrain trim in beige interior
- Metalgrain trim in gray interior
- Dual front illuminated vanity mirrors
- "Limited" badging
