FEEDBACK

Fold-down rear-center armrest with locking trunk pass-through

Front and rear carpeted floor mats

Cargo net tie-down anchors in trunk

Seating and Trim

Leather-appointed, heated, 8-way power driver's seat with adjustable lumbar support and 4-way power passenger's seat

Washi-finish aluminum interior trim

Leather-wrapped 3-spoke steering wheel with cruise control and audio system controls

Aluminum and leather-appointed shift knob

Audio System

6-speaker audio system with AM/FM radio, Radio Data System (RDS), CD player, MP3 playback capability and audio auxiliary input jack

Dual in-glass diversity antennas; the radio tuner compares the signal strength of both antennas, and automatically selects the strongest signal

XM® Satellite Radio

Instrumentation and Driver Controls

Fine Vision electroluminescent gauges

Manual tilt and telescoping steering column synchronizes gauge cluster with column for improved vision

Multi-function trip computer with fuel mileage range and outside temperature display

Infiniti Controller with 7-inch display for audio, fuel economy, maintenance and comfort and convenience systems 

Cruise control with steering wheel-mounted switches

Steering wheel-mounted audio controls

Infiniti analog clock

Exterior

>See Specifications

Comprehensive airflow management for low 0.29 coefficient of drag (Cd) and zero-lift front aerodynamics (zero-lift front and rear aerodynamics with optional rear spoiler)

Aluminum hood with gas struts to hold hood open

High Intensity Discharge (HID) bi-xenon headlights

Integrated front fog lights

LED taillights and center high-mounted stoplight (CHMSL)

Speed-sensing flat-blade wipers increase intermittent wipes as vehicle speed increases

UV-reducing tinted glass reduces transmission of radiant heat to vehicle's interior

Dual power outside mirrors

Aluminum door-sill plates

Rear doors open a full 80° for easier rear-seat entry and exit

Rear window defroster with timer

Dual chrome exhaust finishers

Safety - Occupant Protection

The Infiniti Advanced Air Bag System (AABS)[1] includes dual-stage supplemental front air bags with seat belt sensors and an occupant-classification sensor. When deployed, the inflation rate of these dual-stage air bags adjusts depending on crash severity and seat belt usage. If the front-passenger's seat is empty, a sensor will deactivate the air bag.

Front seat-mounted supplemental side-impact air bags

Roof-mounted curtain supplemental air bags for side-impact protection for front and outboard rear passengers

Front and rear head restraints for all occupant positions

Front Active Head Restraints (AHR) 

3-point height-adjustable front seat belts with pretensioners and load limiters

3-point seat belts with ELR and ALR (driver ELR only)

Slide-away brake pedal assembly

LATCH System (Lower Anchors & Tethers for Children) helps simplify proper installation of compatible child restraint seats 

Emergency inside trunk release

First-aid kit in rear center armrest

Snug Kids offers recommendations for choosing and installing child restraint seats. Download Snug Kids PDF for more details. (79 Kbs)

Safety - Accident Avoidance

Traction Control System (TCS) 

Electronic Brake force Distribution (EBD) 

Brake Assist (BA) 

Tire Pressure Monitoring System (TPMS)[2]

4-wheel Anti-lock Braking System (ABS) 

Vehicle Dynamic Control (VDC) 

Security

Remote keyless entry system with selective unlocking of driver's door or all doors with emergency backup key integrated into Intelligent Key

Infiniti Intelligent Key backup slot to start vehicle if keyfob battery fails

Infiniti Vehicle Immobilizer System 

Vehicle Security System 

Battery saver helps prevent accidental discharge if electrical accessories are left on

[1] Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents; see your owner's manual for more details.

[2] Tire Pressure Monitoring System is not a substitute for regular tire pressure checks.
