**EPA Estimated Fuel Economy [2]**

	<b>QX56 2WD</b>	<b>QX56 4WD</b>
City/Highway	12 mpg/18 mpg[2]	12 mpg/17 mpg[2]

[1] When towing at or near Maximum Trailer Weight, the allowable vehicle cargo and/or number of passengers is reduced because it is necessary to stay below the Gross Combined Weight Rating and the Gross Axle Weight Rating. If the vehicle has cargo and passengers, the allowable Maximum Trailer Weight is reduced. See your Infiniti Towing Guide and owner's manual for proper use.

[2] For model year 2008, the EPA has revised the way the estimated fuel economy rating is determined. For example, the combined fuel economy range for the comparable class of vehicle in 2007 was 9-32 mpg, but under EPA's revised fuel economy test procedures, the comparable class combined range for 2008 may be 10-30 mpg according to EPA's preliminary estimates.
