## MASERATI GRANTURISMO CONVERTIBLE

The Maserati GranTurismo Convertible breaks new ground for the manufacturer from Modena, and is the first true four-place convertible created by the near century-old marque. The distinctive Pininfarina design is respectful of tradition—it reflects the purity of the concept established by its coupé predecessor, the Maserati GranTurismo—and at the same time it exhibits new ideas.

This convertible's fluid form is punctuated by sensuous creases and an unbroken roofline that, with its top in place, is true to the shape of the coupé. Yet the GranTurismo Convertible truly comes into its own with the top down, revealing a spacious interior that can accommodate four adults in a manner that is unique compared to other high-performance luxury GTs.

Classic Maserati designs are recalled by the imposing oval grille—a trademark of legendary Maserati race cars—and in wheels referencing the trident that has been the symbol of Italy's historic brand since the company's founding.

Like every Maserati, the GranTurismo Convertible is dedicated to performance, with a competition-inspired V8 engine that delivers a driving experience to match the visual pleasures one takes in at every glance. To enjoy grand touring in top-down luxury from behind the wheel of this remarkable Maserati is to truly understand the passion inspired by those cars that bear the Trident.
