

## 1965 Austin Healey BJ8

This 1965 Austin Healey BJ8 has almost completed a restoration by Collins Classics in Burlingame, CA - a shop specializing in older British Cars. The car was very tired in all respects, but not very rusty - just worn out. The restoration over an extended period began with the removal of the motor, transmission, interior, windshield, all accessories. The restoration work has subsequently included new light yellow paint, rebuilt motor, rebuilt transmission, new dashboard, new wiring harness, new dark red leather interior, new chrome where necessary, new wheels and tires, overhauled brakes, radiator, and anything else that required attention to result in a reliable driving Healey 3000 - if there indeed is such a thing.
