

Drive one! - at the **Corvette Advanced Driving School**
Las Vegas (Pahrump) NV, racespringmountain.com

The Callaway Corvette represents everything we know about making a great Corvette. Power, style, craftsmanship and function. They are seriously fast, beautiful and exclusive.

Callaway has spent 30 years, engineering, developing and manufacturing special vehicles for manufacturers from Aston Martin to Volkswagen. We have come to appreciate what works, what doesn't, what's a liability down the road, and what gives lasting satisfaction. We have condensed that knowledge into a series of coordinated modifications, manufactured them from the best materials, and offered them to the enthusiast in packages that treat the car as a well-tuned, systems-engineered entity. That is how we make Powerfully Engineered Automobiles.

Drive one! - join us at **World Class Driving** (worldclassdriving.com) for an extended on road comparison with Ferrari, Lamborghini, McLaren and Porsche.

Callaway Z06R Wins FIA GT3 European Championship 2007

Callaway Corvettes are built by Callaway and available through select Callaway Corvette Chevrolet Retailers

"...highly individualized, sharp-handling, meticulously outfitted supercar, one that tops out at a claimed 200 mph in anger but will still return 28 mpg when driven gently."
Road & Track

"The flesh on your cheekbones ripples back toward your ears in a sort of g-induced perma-grin." *Road & Track*

*"...3.4 second 0-60; 11 second quarter mile; 200 mph top speed; EPA rating of 18 mpg city and 28 mpg highway. Is this the perfect sports car? We say: "yes" *ign.com**

"It's not from Mars, but the new Callaway does deliver a blast that's out of this world." *Motor Trend*

"The Callaway is incredibly well-balanced and well-engineered, exemplifying Callaway's 20 years of road and track familiarity with the Corvette platform." *Velocity*
