2010 CALLAWAY CORVETTE SC606

Callaway Cars is proud to introduce the new Callaway Corvette SC606: a class-rivalling supercar at a fraction of the cost of its European counterparts. Adhering to a design philosophy forged over thirty years of constructing **“Powerfully Engineered, Seriously Fast”** automobiles, the Callaway SC606 provides intimidating power while displaying refined manners: Flat 11-second ET capability with no fuel mileage penalty, perfect drivability, a 3 year/36,000 mile powertrain warranty and an array of optional performance and aesthetic enhancements.

2010 CALLAWAY CORVETTE SC606 STANDARD EQUIPMENT:

- Eaton/Magnuson Roots-style TVS2300 Supercharger, with black housing
- Liquid-to-air Intercooler, integral to intake manifold base (patent pending)
- Increased flow rate Fuel Injectors
- Callaway Carbon Fiber Injector Covers
- Electronic Fuel Pump Controller
- Callaway Double-D Stainless Steel Exhaust System
- Callaway Honker High Flow Intake System
- Callaway Carbon Fiber Louvered Hood Center Bulge, with “Supercharged” emblems
- Callaway Door Sill Panels
- Callaway Embroidered Floor Mats
- Callaway Badging, exterior and interior, including dash plaque with engraved VIN
- Callaway Corvette Authenticity Documentation
- Callaway 3 year/36,000 mile limited powertrain warranty

Features and specifications are subject to change without prior notice.
