Callaway Z06.R wins FIA GT3
European Teams Championship 2007

The Callaway Corvette represents everything we know about making a great sports car. Power, style, craftsmanship and function. They are seriously fast, beautiful and exclusive.

Callaway has spent over 30 years, engineering, developing and manufacturing special vehicles for manufacturers from Aston Martin to Volkswagen. We have come to appreciate what works, what doesn't, what's a liability down the road, and what gives lasting satisfaction. We have condensed that knowledge into a series of coordinated modifications, manufactured them from the best materials, and offered them to the enthusiast in packages that treat the car as a well-tuned, systems-engineered entity.

That is how we make Powerfully Engineered Automobiles.

Drive one! - Join us at **World Class Driving** for a drive in the Callaway vs. Ferrari, Lamborghini, McLaren and Porsche.

Callaway Corvettes are built by Callaway and sold by Callaway Corvette/Chevrolet Dealers nationwide

"...highly individualized, sharp-handling, meticulously outfitted supercar, one that tops out at a claimed 200 mph in anger but will still return 28 mpg when driven gently."

Road & Track

"The straight line performance goes from quick to warp, the stopping from good to neck-snapping and the cornering from fun to feeling like you're in a giant centrifuge."

The London Times

"... immensely powerful, much more comfortable than you would expect, beautiful to behold and blessed with handling ..."

Top Gear

"The Callaway is incredibly well-balanced and well-engineered, exemplifying Callaway's 20 years of road and track familiarity with the Corvette platform."

† Acceleration testing conducted with performance tires.

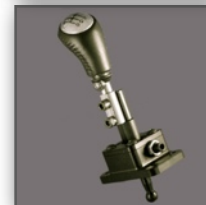

* Horsepower and torque recorded per SAE test procedure.

OPTIONAL EQUIPMENT

Engineered and Installed by Callaway

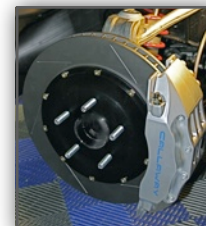

- Callaway Exhaust Tip Slats
Machined, anodized aluminum horizontal "slats" accentuate Callaway's trademark Double-D exhaust tips. \$790

- Callaway Short-Throw Shifter
Short-throw mechanism allows quick, precise operation. Robust, spring-loaded design prevents missed shifts. Adjustable stop bolts prevent transmission damage during hard shifting. Utilizes OEM shift knob. \$480

- Callaway/Eibach Multi-Pro Suspension System
Supplemental coil-over dampers with 10-position adjustable compression and rebound. Includes adjustable stabilizer bars. Complete with setup, wheel alignment and calibration.
for OE base and Z51 suspension \$5,760
for OE F55 selective ride suspension \$6,270

- Callaway Le Mans Brake Package
6-piston front and 4-piston rear caliper design with patented stiffening bridge for shorter stopping, less fade, firmer pedal. Slotted rotors with patented vane design provide improved cooling, longer pad life.
with 355 mm rotors (OE QG7 or Q9V wheels) \$7,240
with 380 mm rotors (C-Mg wheels) \$7,620

- Callaway/Dymag C-Mg Wheel & Tire Package
World's lightest road wheel!
Carbon fiber rims with magnesium centers and titanium fasteners reduce unsprung weight and moment of inertia for superior response. Half the weight and three times impact resistance of aluminum wheels.
19"x9.5" front w/275/30ZR19 tires,
20"x11" rear w/305/25ZR20 tires \$10,990

- Callaway SportSeat Package
Keeps driver and passenger in position for spirited driving. Finished in premium leather hides. \$7,440

- Callaway Deutschleder Interior Group
Exquisite custom leather interior crafted with meticulous German workmanship. Available in your choice of colors. \$24,300
