

Sportwagon

Holden. Go better.

It was a classic birthday surprise: no clues, just a list of what to bring and 30 minutes to get ready. Three hours later, the car door opens and I step into a postcard...

A view, a weekend, a feeling I will never forget. A gift to keep and carry always. They say everyone finds a place that resonates; where you feel at one; where you connect. This was mine.

nothing compares

Practicality. Versatility. Spaciousness. Safety. Performance. You can justify your decision all you like. But your ultimate reason for owning the all new Commodore Sportwagon – and all the reason you need – is that you want one. And have done from the moment you laid eyes on it.

Who can blame you? Turning practical into practi-cool, there has never been a Holden wagon like it. Never one so eye-catchingly sleek and refined. So purposeful and capable looking. So Australian, yet so obviously brimming with world-class automotive sophistication.

But the new Sportwagon has more than looks going for it. The five-adult cabin is large, luxurious and packed with the latest in driving and entertainment technology. The expandable cargo area is meticulously designed to ensure easy and ergonomic access in even the tightest spaces. And a full complement of advanced safety systems – including Electronic Stability Control (ESC) and six airbags – is standard across the range.

Most important of all, the Sportwagon drives like a Holden should. Powered by your choice of V6 or V8 engine, and featuring the same linear control suspension as the 2006 Wheels Car of the Year winning VE Commodore sedan range, it handles with the ease and agility of a vehicle far smaller.

For families on the go. For business on the move. For the sheer pleasure of an endlessly satisfying journey to a destination only you know. Nothing compares with the all new Commodore Sportwagon.

We stay the Sunday night, get up at 5:00am Monday and drive straight to work: rugged coastline on our right, rugged bush on our left...

...Most times we don't see another car for an hour or more. Just the rising sun, slowly waking the countryside.

once seen,
never forgotten

Your eyes see a wagon. Your mind sees a sports car. Your imagination already has you behind the wheel. At a stroke, Holden design engineers have transformed the traditional wagon into an aerodynamic object of desire. Fluid. Seamless. Peerless. The Sportwagon's streamlined body form sweeps from the tip of its sculpted nose, to the tail of the tapered roof that so cleverly disguises the spacious load area within.

Strikingly sleek and stylish, the vehicle's exquisite proportions are further accentuated by its next generation Commodore design DNA. The muscular wheel arches, the signature fender vents, the motorsport-inspired sloping stance – it's all there to admire, and be admired.

Is it the most stunning wagon to ever grace Australian roads? The answer is right in front of you. Once seen, never forgotten, the new Holden Sportwagon is an idea whose time has come.

We originally stumbled on the spot by chance, unloaded our bikes and just started exploring...

...Today, we still ride exactly the same route: along the riverside into the township for lunch, a quick nap under the giant Moreton Bay Fig, then, weather permitting, back via the beach for a swim.

accessories

The new Holden Sportwagon range comprises seven striking vehicles, each of which can be further individualised by adding your own finishing touches from the great range of Genuine Holden Accessories and head-turning enhancements. Explore all the possibilities at holden.com.au/genuineaccessories

SS in Karma with optional 20" x 8" 10-spoke alloy wheels, roof rack and bike carrier

*always
accommodating*

Because your needs can change from one minute to the next, the always accommodating Sportwagon adapts just as quickly.

Camping trip for two? The 60/40 split rear seats fold flush to give you a continuous storage area that is almost 2 metres long and has a 2000 litre cargo capacity. Family outing? Upright, the rear seats have room and comfort to spare for three adults. Golfing weekend with a couple of mates? Fold down one of the rear seats, stow your gear and go!

But it's not just size and flexibility that wins the space race for Sportwagon. To help reduce back strain, the cargo floor is elevated and

the clever cargo blind can be raised and lowered while fully extended. Load hooks recessed into the floor and side walls combine with the four position cargo net* to ensure secure carrying and easy access. And a load area side lamp lights your way when the sun is down or the cargo blind is extended.

Ergonomics also come to the fore up front. The driving position offers a commanding view of the road. Instrumentation is clear, concise and conveys all essential information at a glance. While centre console controls come to hand effortlessly and operate intuitively.

You'll also take comfort in knowing Sportwagon's seats are generously bolstered, with rear passengers enjoying the added benefit of enhanced side support. And that every model across the range is equipped with a long list of standard features, including air-conditioning, power windows and a CD audio system.

* The four position cargo net is standard on Calais and Calais V-Series, and available as an accessory on all other models

Omega with Metro cloth seats

Berlina with Metro cloth seats

SV6 with Onyx cloth seats

SS with Redhot cloth seats

Calais with Metro cloth seats and leather appointed bolsters

SS V-Series with Redhot instruments, dash and leather appointed seats

Calais V-Series with Onyx leather appointed seats

storage

It's not just how much you can store in the new Holden Sportwagon that will impress, but how easily you store it. Thinking outside and inside the box, Holden engineers have created a superbly functional and ergonomic cargo space that's easier for you to access from both within and out of the vehicle.

- 1 Cargo blind
- 2 Child restraints
- 3 Flush mounted load hooks
- 4 Shopping bag hooks
- 5 Side mounted loading light
- 6 Side storage and 12V power outlet
- 7 12V power outlet

268mm Forward hinged tailgate

Elevated cargo floor

60/40 split rear seating

Cargo blind

Cargo net

Tilting cargo blind

Traditional cargo blinds have one major drawback – the only way to access the cargo underneath is to retract and then re-extend the blind. At best an annoyance, at worst unwanted stress on the back caused by over-reaching.

But the new Sportwagon's rear cargo blind is different. With its innovative, two-way tilt mechanism, you simply raise the extended cargo blind up, access your cargo, then lower it back into place. A flick of the wrist is all it takes.

Even better, a side-mounted load area light is strategically positioned below the blind height. Day or night, you'll never need to grope around in the dark when retrieving cargo items.

Four position cargo net

Used in conjunction with the Sportwagon's flush mounted load hooks on the cargo floor and side walls, the four position cargo net* keeps everything in its place, in any of four places:

- at the very front of the cargo area, within easy reach of rear passengers
- in the centre of the cargo floor, or
- out of the way, against the left or right cargo area wall.

More space for smart ideas

There are plenty more examples of Sportwagon's smart storage ideas to be found in the cargo area, including:

- On each side wall, just inside the tail gate, flush fitting shopping bag hooks spring into view when touched.
- Toward the rear on the driver's side, an integrated storage compartment holds smaller cargo items, and is also home to a 12 Volt power outlet. Another 12 Volt outlet is located on the centre console at the front of the cabin.
- With the optional moulded spare wheel well liner* accessory fitted, the space under the cargo floor can be utilised as a storage area.

* Standard on Calais and Calais V-Series, and available as an accessory on all other models

* Compatible with space saver spare wheel only

Forward hinged tailgate

Traditional wagon designs have the tailgate hinged toward the end of the roofline. By moving the hinge point forward, and thus enabling the tailgate to swing up more steeply, Holden engineers have unleashed a raft of practical, everyday advantages for owners.

To open the Sportwagon's tailgate, for example, you require just 268mm – less than a foot – of clear space behind. So you can park close to walls or other cars and load or unload the vehicle without inconvenience. The forward hinge point also creates more head room for you when leaning into the cargo area. And when open fully, the tailgate has a high ground clearance, eliminating the risk of accidental head knocks for all but the tallest people.

Elevated cargo floor

The Sportwagon's cargo floor is appreciably higher than previous Holden wagons. This means less need to bend when putting down or picking up cargo items, and less stress on your back as a result.

Flush folding 60/40 split rear seating

At 895 litres, the Sportwagon's rear cargo space should accommodate most of your needs. But for those times when big isn't quite big enough, you can extend the space to 2000 litres in an instant by folding down all rear seats. What's more, because the seats fold flush, you're presented with a single, continuous floor. No ridges. No gaps. Just a flat cargo area that allows you to slide items into place, rather than reach, lift and lower them.

Side storage and 12V power outlet

Accessory moulded spare wheel well liner*

safety

Safety in numbers, and large numbers at that. Sportwagon's advanced new multi-layered driver defence system surrounds you – literally – with state-of-the-art active and passive safety features. The former to help prevent collisions; the latter to help prevent injury in the event of a collision.

Active safety

Up to 200 times a second – that's how often the Sportwagon's active safety systems monitor on-road dynamics. Everything from the vehicle's speed, lateral acceleration and rotation, to the steering wheel angle and brake force you apply.

When normal tolerances are exceeded, one or more of the following systems initiate integrated – non-intrusive – counter measures to help ensure you retain maximum control of the vehicle.

Co-ordination of active safety features
Be it from the Electronic Stability Control (ESC) for turning and cornering. The Traction Control System (TCS) that minimises slip when accelerating. Or the Anti-lock Braking System (ABS) with Electronic Brake Assistance (EBA) and Electronic Brakeforce Distribution (EBD) that helps you stop quickly with maximum control. You can expect 360° support from the Sportwagon's integrated active safety systems.

ESC Electronic Stability Control
ESC constantly compares the vehicle's movements with the steering wheel angle to determine if the vehicle is moving in the direction you intend. If skidding appears imminent, ESC applies brake pressure to individual wheels as appropriate and, if necessary, trims engine power. This dramatically increases turning and cornering safety, especially in 'evasive action' situations.

TCS Traction Control System
Designed to minimise slippage during acceleration, TCS recognises if either rear wheel has insufficient grip and adjusts drive force and brakeforce accordingly. It reduces wheelspin when accelerating on wet and icy roads, and also in 'split' conditions, such as when a vehicle has two wheels on bitumen and two on a gravel verge.

ABS Anti-lock Braking System
If wheel 'lock up' is detected under forceful braking, ABS momentarily reduces brake pressure at the affected wheel. This improves braking efficiency – reducing stopping distances on most surfaces – and helps maintain steering control to ensure the vehicle remains directionally stable.

EBA Electronic Brake Assist
In emergency braking situations, few drivers actually press the brake pedal firmly enough to achieve maximum braking performance. EBA is designed to sense how fast you press the brake pedal in an emergency, and maximise braking pressure to optimise braking performance.

EBD Electronic Brakeforce Distribution
When a vehicle brakes, weight transfers to the front wheels. By regulating the brakeforce applied to each wheel, EBD ensures optimal balance between front and rear brakes, which helps minimise stopping distances.

Passive safety

A collision is a contest between impact energy and your vehicle's safety features. You want everything possible on your side.

That's why the Sportwagon features Holden's Adaptive Occupant Restraint System – which includes dual-stage front airbags, side and curtain airbags – as well as multiple load paths to help channel impact energies and a safety cell reinforced with ultra high strength steel.

Most impressive of all, in a frontal crash, the Sportwagon can automatically initiate and co-ordinate all on-board passive safety measures in an incredible 90 milliseconds (ms) – about the time it takes to snap your fingers.

Co-ordination of passive safety features
To help protect occupants from collision forces, Holden's Adaptive Occupant Restraint System uses forward and side sensors to detect the severity and direction of a collision, triggering the appropriate passive safety measures.

Safety cell, crumple zones and load paths
In frontal and rear collisions, impact energy is absorbed by crumple zones and channelled away from the driver and occupants via multiple load paths.

The Sportwagon's multiple load path strategies are also integral to side impact protection, as is the vehicle's safety cell. Strategically reinforced with steel seven times stronger than your average steel, it offers protection against passenger safety cell intrusion.

- crash sensors
- 1 driver's front airbag
- 2 passenger's front airbag
- 3 side impact airbags
- 4 curtain airbags
- 5 front crumple zone
- 6 passenger safety cell
- 7 rear crumple zone

Pyrotechnic seatbelt pretensioners
When an impact of sufficient severity is detected, small explosive charges force the front seatbelt buckles towards the cabin floor. This tightens the seatbelts and helps hold both driver and front passenger firmly against their seats.

Dual-stage front airbags
For maximum protection in certain frontal collisions, the front airbags for driver and front passenger inflate in two stages, according to the impact severity and their respective seat positions.

The 60 litre driver airbag can fully inflate in 45 milliseconds. The front passenger airbag, which is oversized, can inflate to a full 125 litres in just 55 milliseconds.

Curtain and side impact airbags
Side curtain airbags help provide head and upper body protection for front passengers and left and right rear passengers in certain side-on collisions. Side impact airbags help provide additional chest and thorax protection for the driver and front passenger.

Load limiters
The seatbelts incorporate a load limiting system that helps control the level of force applied to an occupant during an accident. This in turn helps reduce seatbelt related injury.

Steering and brake pedal safety
In severe frontal impacts, the steering column can collapse and to help prevent leg injury, the brake pedal can detach.

Active front seat head restraints[^]
In rear collisions, active front seat head restraints tilt forward, closing the distance between your head and your seat's headrest, thus helping to minimise the risk of whiplash injury to the neck.

Emergency shutdown
Following a collision where airbags or seatbelt pretensioners have deployed, on-board safety systems will turn off the engine and fuel pump, unlock the doors, and turn the hazard and interior lights on, if battery power is available.

[^] Standard on Calais and Calais V-Series, and not available as an option on other models
Diagrams for illustration purposes only

Innovation comes in all shapes and sizes in the Sportwagon. From the futuristic component synchronisation and optional on-board telematics, to the sublime convenience of integrated Bluetooth® mobile phone connectivity.

Technology, not for technology's sake, but for you – the driver. To help protect you and your investment. Make it easier for you to get from your journey's start to end. And to create a driving experience richer and more rewarding than ever before.

Read on, you'll get the idea. Then factor in the Sportwagon's price tag. This is not only an incredibly smart vehicle, it's an extremely smart choice of vehicle.

Holden Assist telematics

Optional as an accessory on all models, telematics enables vehicles to send and receive data – and have their position pinpointed at any time – via integrated GSM mobile phone network and global positioning satellite technology.

Owners of telematics-equipped vehicles can take advantage of Holden Assist, a subscription-based interactive security system that provides on-board assistance 24/7.

Holden Assist Ultra

- If an airbag is deployed, the system notifies an operator who will attempt to speak with the driver. If there is no response, emergency services are notified.
- If keys are locked in the vehicle, an operator can validate the owner's identity, then unlock the doors remotely.
- In an emergency, the driver can press the SOS button to speak with an operator, who will locate the vehicle and send emergency services if required.
- If roadside assistance is required, on the press of a button the vehicle is located and assistance despatched.
- If the vehicle battery is low, the system notifies an operator who will attempt to speak with the driver.

GM FleetView

Designed for businesses with on-the-road employees, fleet telematics are designed to increase driver and fleet manager productivity, while encouraging better driver behaviour and greater adherence to occupational health and safety practices. For full details on fleet telematics, call GM Fleet Customer Assistance on 1300 559 696.

Satellite navigation

The SS V-Series, Calais and Calais V-Series have the option of full mapping via the colour LCD screen located in the vehicle's centre console.

Trip computer

Standard across all models, the on-board trip computer is controlled via the scroll wheel and buttons mounted on the steering wheel.

Trip data is shown on the electronic driver display. Depending upon your preferences, the information displayed can include:

- trip distance
- average speed
- average fuel usage
- distance to go
- time to go
- range
- odometer reading
- speed
- overspeed warnings (visual and audible)
- underspeed warnings (visual and audible)
- rest reminders every two hours of driving time

It is even possible to track two trips simultaneously, for example a short day trip within a long interstate trip.

Personalisation

All models let you tailor a range of vehicle functions to your individual preferences, including:

- Departure lighting: when locking your vehicle remotely at night, the headlamps will remain on and turn off automatically after 30, 60, 90 or 180 seconds.
- Approach lighting: when unlocking your vehicle remotely, the headlamps can automatically come on for 60 seconds, or not at all.
- Multi-stage unlocking: when unlocking your vehicle remotely, you can have all four doors unlock at once, or the driver's door on the first press and the remaining doors on the second.

Night panel

At night, interior lighting can be dimmed to leave only the speedometer illuminated. Should your attention be required, the relevant instrument lights up. This reduces driver distraction and fatigue, making it perfect for night driving in the country.

Priority key

All models come with two priority keys, which store individual driver preferences, such as trip computer display options, personalisation settings and radio station presets. Your preferred settings take effect the moment you unlock your car remotely.

Component synchronisation

To deter theft, the audio system, instrument cluster and other key components are electronically synchronised to the vehicle in which they were originally fitted.

Rear View Camera

Mounted near the back number plate, the Sportwagon's optional rear view camera activates automatically when reverse gear is selected to give you a clear view behind the vehicle. On the Omega, Berlina, SV6 and SS models, the vision displays on a screen integrated into the rear view mirror. The SS V-Series, Calais and Calais V-Series offer the added option of displaying the vision on the vehicle's centre console colour LCD screen.

Front and Rear Park Assist

The electronic Park Assist on SS V-Series, Calais and Calais V-Series automatically provides visual and audible aids when parking the vehicle. Appearing on the centre display, the visual aid shows both the direction and distance of nearby objects to the rear of the SS V-Series and Calais. And to both the front and rear of the Calais V-Series.

Audible assistance on rear parking is also a standard feature on Omega, Berlina, SV6 and SS.

Bluetooth®

Integrated Bluetooth® technology lets you take and make calls, hands-free, at the touch of a button with compatible Bluetooth® mobile phones. The controls are conveniently mounted on your steering wheel, the microphone is housed in the roof console, and the call is heard over the audio system – which automatically mutes whatever is playing at the time. No wires. No cradles. No headsets. Bluetooth® is standard on Berlina, SV6, SS, SS V-Series, Calais and Calais V-Series and optional on Omega.

Certain mobile phones may not be compatible with the vehicle's Bluetooth® system. Visit holden.com.au to determine your phones compatibility.

MP3 player connectivity

The audio system in all models includes an auxiliary input jack for external music sources, such as MP3 players.

DVD player

An integrated DVD player with fold down screen is standard on Calais V-Series and available as an option on all other models, excluding Omega. Designed for use by rear passengers, it is incorporated into the roof and comes complete with wireless headphones and a remote control.

Location of features when fitted

- 1 Holden Assist telematics SOS button located on rear vision mirror.
- 2 Telematics GSM network transmitter.
- 3 Satellite navigation GPS transmitter.
- 4 Steering wheel mounted scroll wheel and buttons for controlling satellite navigation, trip computer, audio system, personalising settings and hands-free phone calls using Bluetooth®.
- 5 Centre driver display for messages such as satellite navigation directions, trip computer data and more.
- 6 The SS V-Series, Calais and Calais V-Series utilise the centre console screen to display full audio system and climate control data, as well as the optional reversing camera when fitted, and full-colour mapping when satellite navigation is fitted.
- 7 Microphone for telematics communications and hands-free Bluetooth® mobile phone calls.
- 8 Audio system auxiliary input jack for connecting MP3 players.
- 9 Integrated DVD player and screen.
- 10 Rear view camera, integrated in the rear view mirror, is optional on Omega, Berlina, SV6 and SS.
- 11 Rear view camera.

Alloytec V6

Power to spare, from one of the most sophisticated and advanced production engines ever manufactured in Australia. That's what you can look forward to when you turn the key and experience the exhilarating performance of an Alloytec V6 engine.

A proven world-class engine in every respect, it's available in two 3.6 litre variants:

- Alloytec V6 – standard on Omega and Berlina
175kW* of power at 6500rpm
325Nm* of torque at 2400rpm
- High Output Alloytec V6 – standard on SV6, Calais and Calais V-Series
195kW* of power at 6500rpm
340Nm* of torque at 2600rpm

* Maximum figures as per ECE regulations

Engine hardware may vary

Generation 4 Alloy V8

For supreme power there's only one choice: the 6.0 litre Generation 4 Alloy V8.

Standard on the Sportwagon SS and SS V-Series. Optional on the range-topping Calais V-Series. Developing a brutal 270kW** of power and 530Nm* of torque with manual transmission, and 260kW**/517Nm* with auto, the legendary Gen 4 delivers exceptional performance and towing capabilities. Its features include:

- Active Fuel Management† (AFM), which can seamlessly shut down four cylinders according to engine load and acceleration requirements, thus reducing petrol usage.
- Aluminium alloy construction, creating a lightweight engine for a smoother ride.
- Less weight in the front end, allowing more precise steering response, which translates into more agile handling.
- A one-piece induction system made from composite materials, for smooth airflow and superior breathing.

* Figures quoted using 98 RON (PULP)

** Maximum figures as per ECE regulations

† Automatic transmission only

Engine hardware may vary

Transmissions

4-speed automatic transmission

Featuring a new input speed sensor to match engine revs to gear changes, Sportwagon's 4-speed automatic transmission ensures refined, smooth and consistent gearshifts for Omega and Berlina drivers.

5-speed automatic transmission with Active Select

Teamed with the High Output Alloytec V6 engine on the SV6, Calais and Calais V-Series, the 5-speed automatic transmission with Active Select delivers smooth, crisp – almost seamless – gearshifts.

6-speed manual transmission

Designed with a super smooth short throw for more spirited driving, the 6-speed manual transmission has the ideal first gear launch feel and lower cruising revs in sixth. Standard on the SS and SS V-Series, it's the obvious choice for those who prefer a 'hands-on' approach.

6-speed automatic transmission with Active Select

Paired perfectly to the Generation 4 Alloy V8 engine on Sportwagon SS, SS V-Series and Calais V-Series, the optional 6-speed automatic transmission has a truly world class shift feel and delivers improved acceleration. Active Select gives you the added advantage of one touch switching between automatic or manual gear shifting.

Omega

For work. For family. For undeniable pleasure. Destined to go places, and quickly, the new Omega Sportwagon puts excitement back into practicality with a mix of style, effortless, sedan-like driveability and the cargo space you expect from a true, full sized wagon. With a level of standard safety features that's anything but standard, it comes at a price you'll find hard to believe, and even harder to resist.

Key features include:

- 3.6 litre Alloytec V6 engine with 4-speed automatic transmission
- 16" alloy wheels (4)
- Electronic Stability Control (ESC) incorporating:
 - Anti-lock Braking System (ABS)
 - Electronic Brakeforce Distribution (EBD)
 - Electronic Brake Assist (EBA)
 - Traction Control System (TCS)
- 6 airbags including:
 - Dual-stage front airbags for driver and front passenger
 - Side impact airbags for driver and front passenger
 - Side curtain airbags
- Rear Park Assist
- Trip computer
- Cruise control
- Illuminated steering wheel controls
- Front and rear power windows
- CD audio system with auxiliary input jack
- 4 way electric adjustment of driver's seat
- 2 priority keys

Intuitive controls

Clear, concise markings, rubberised grips and intuitive operation enable fast, simple and accurate adjustment of centre console controls, with visual verification of settings provided by the adjacent multifunction display.

Customisable trip computer

The on board trip computer lets you monitor your choice of real time data on the centre driver display, including trip distance, average speed, average fuel usage, distance to go, time to go, distance to empty, odometer and speed, as well as overspeed and underspeed warnings.

Priority key

Your personal radio station presets, trip computer preferences and other individual vehicle settings are all stored on your priority key, and all take effect the moment you unlock the vehicle.

Rear Park Assist

Electronic park assist takes the hassle and guesswork out of parking in tight spaces by using audible warnings to indicate the proximity of potential obstacles.

Omega in Sandstorm

Berlina

Prefer the finer things in life? Settle back into the deeply cushioned driver’s seat of the Berlina Sportwagon. With its spirited performance, refined road manners, enhanced equipment levels and thoughtful extra touches throughout its elegant and spacious interior, Berlina has the unmistakable air of a true luxury vehicle. A premium package in every respect, except the price tag.

- Key features include:**
- 3.6 litre Alloytec V6 engine with 4-speed automatic transmission
 - 17" alloy wheels (4)
 - Electronic Stability Control (ESC) incorporating:
 - Anti-lock Braking System (ABS)
 - Electronic Brakeforce Distribution (EBD)
 - Electronic Brake Assist (EBA)
 - Traction Control System (TCS)
 - 6 airbags including:
 - Dual-stage front airbags for driver and front passenger
 - Side impact airbags for driver and front passenger
 - Side curtain airbags
 - Rear Park Assist
 - Trip computer
 - Cruise control
 - Leather wrap steering wheel with illuminated controls
 - Front and rear power windows
 - 6-disc CD audio system with MP3 compatibility and auxiliary input jack
 - 7 speakers. Total 80 watts
 - Dual-zone electronic climate control
 - 4 way electric adjustment of driver’s seat
 - Front fog lamps
 - Bluetooth® for compatible mobile phones
 - 2 priority keys

Shopping bag hooks
Conveniently positioned next to the tailgate on both sides of the cargo area, the Sportwagon’s spring loaded bag hooks extend on touch to hold your shopping upright for the drive home.

Integrated Bluetooth® connectivity
Press a button on the leather wrap steering wheel and the audio system automatically mutes while you make or answer a call hands-free on your compatible mobile phone.

MP3 player connectivity
Even your longest journey can be accompanied by an uninterrupted sound track, thanks to the CD player’s auxiliary input jack, which allows you to play music from an external source through the vehicle’s 7-speaker sound system.

6" multifunction console display
Large, bright and angled for easy reading, the centre console screen displays full audio system details at a glance, plus dual-zone climate control settings for both driver and front passenger.

SV6

Hard to forget. Impossible to ignore. The SV6 Sportwagon never fails to make an impression. With its sports body kit, high output V6 engine, sports suspension and sports style instrumentation, the SV6 is more than just a step up, it's a bold leap into the realm of high performance motoring.

- Key features include:**
- 195kW* 3.6 litre High Output Alloytec V6 engine with 5-speed automatic transmission featuring Active Select
 - 18" alloy wheels (4)
 - Electronic Stability Control (ESC) incorporating: Anti-lock Braking System (ABS) Electronic Brakeforce Distribution (EBD) Electronic Brake Assist (EBA) Traction Control System (TCS)
 - 6 airbags including: Dual-stage front airbags for driver and front passenger Side impact airbags for driver and front passenger Side curtain airbags
 - Rear Park Assist
 - Leather wrap steering wheel with illuminated controls
 - CD audio system with auxiliary input jack
 - Sports instrumentation
 - Dual exhaust outlets
 - Sports body kit with fog lamps
 - Sports suspension
 - Bluetooth® for compatible mobile phones
 - 2 priority keys

5-speed automatic transmission with Active Select
The undeniable convenience of automatic transmission, and the unbeatable 'hands on' driving pleasure of rapid manual shifting – with this Active Select equipped 5-speed gearbox, the choice is always yours.

Sports instrumentation cluster
The sports style analogue instruments are complemented by a 'programmable' centre screen that displays information according to your personal preferences, including audio system settings, trips details, warnings, reminder indicators and Bluetooth® phone status.

12 Volt power outlets
Whether you're on a daytrip to the beach or a camping holiday miles from anywhere, you can run your 12 Volt creature comforts from the power outlets conveniently located in your Sportwagon's centre console and rear cargo area.

Audio and climate control operation
The primary controls for the audio and climate control systems feature chrome dials ringed with tactile soft rubber for easy gripping. Settings for both are verified on the large display mounted high on the centre stack.

SS

Harness its power. Unleash its potential. With 270 Kilowatts of eight cylinder exhilaration under the bonnet, the signature SS cockpit before you and the open road ahead, you have only one choice – go for it. From its menacing front end to the tip of its quad chrome exhausts, the SS Sportwagon is a model of motorsport-inspired perfection.**

- Key features include:**
- 6.0 litre Generation 4 Alloy V8 engine with 6-speed manual transmission or optional 6-speed automatic with Active Select and Active Fuel Management (AFM)
 - 18" alloy wheels (4)
 - Electronic Stability Control (ESC) incorporating: Anti-lock Braking System (ABS) Electronic Brakeforce Distribution (EBD) Electronic Brake Assist (EBA) Traction Control System (TCS)
 - 6 airbags including: Dual-stage front airbags for driver and front passenger Side impact airbags for driver and front passenger Side curtain airbags
 - Rear Park Assist
 - Embroidered SS sports seats
 - Leather wrap steering wheel with illuminated controls
 - 6-disc CD audio system with MP3 compatibility and auxiliary input jack
 - 7 speakers. Total 80 watts
 - Sports instrumentation
 - Quad exhaust outlets
 - Sports body kit with fog lamps
 - Sports suspension
 - Bluetooth® for compatible mobile phones
 - 2 priority keys

6-disc, MP3 compatible in-dash audio system

With its high fidelity in-dash audio system carrying up to six discs at the one time – CD, or MP3 – the SS ensures listening to tracks is as rewarding as making them.

Rear cargo side storage

Positioned close to the tailgate for easy access, the recessed side storage compartment features elastic netting to ensure stowed items remain securely in place.

Signature sports seats

Embroidered with the most famous initials in Australian sports motoring, the cockpit style front seating of the SS maximises driver comfort and support.

6-speed automatic transmission with Active Select

Let the smooth shifting transmission manage changes for you, or take control in Active Select mode and use the sports style shifter to power through the full six gear range yourself.

* Maximum figures as per ECE regulations
Figure quoted for manual transmission using 98 RON (PULP)

SS V-Series

Everything you dare to dream. Every performance enhancement. Every race-bred detail. It's all here, ready to go. Supreme 6.0 litre Gen 4 V8 power. Road gripping 19-inch alloys. Quad exhaust. Alloy pedals. Leather appointed sports seats, shifter and steering wheel. One with the lot and then some, the SS V-Series puts the sport into Sportwagon with a capital 'S'.

Key features include:

- 6.0 litre Generation 4 Alloy V8 engine with 6-speed manual transmission or optional 6-speed automatic with Active Select and Active Fuel Management (AFM)
- 19" alloy wheels (4)
- Electronic Stability Control (ESC)incorporating:
Anti-lock Braking System (ABS)
Electronic Brakeforce Distribution (EBD)
Electronic Brake Assist (EBA)
Traction Control System (TCS)
- 6 airbags including:
Dual-stage front airbags for driver and front passenger
Side impact airbags for driver and front passenger
Side curtain airbags
- Rear Park Assist
- Embroidered SS leather appointed sports seats
- Sports profile leather wrap steering wheel with illuminated controls
- Leather wrap gear selector
- Alloy faced pedals
- 6.5" multifunction colour LCD screen
- 6-disc, MP3 compatible CD system with auxiliary input jack.
7 speakers. Total 150 watts
- Dual-zone electronic climate control
- Colour coded SS sports instrument cluster
- Quad exhaust outlets
- Sports body kit with fog lamps
- Sports suspension
- Projector headlamps
- Bluetooth® for compatible mobile phones
- 2 priority keys

Multifunction leather wrap steering wheel

Leather wrapped to provide more positive grip, the SS V-Series' steering wheel allows you to control the audio system and trip computer, and make and take calls with compatible Bluetooth® enabled mobile phones. All without once removing your hands from the wheel.

Alloy faced pedals

Motorsport inspired, these stunning looking alloy faced pedals are designed to give you sure footed control of the accelerator, brake and clutch.

Multifunction colour LCD display

The centre console mounted full colour screen displays full audio system details and the dual-zone electronic climate control settings for driver and front passenger. It also provides full colour mapping when the optional satellite navigation is installed and, when the vehicle is stationary, acts as a second DVD display if the optional DVD player is fitted.

Colour coded instrument cluster

Combined with your choice of matching dash panels and leather appointed seats, the colour coded tachometer and speedometer give the SS V-Series cabin a striking individuality.

Calais

It's a name synonymous with leadership in sports luxury motoring. Now, for the first time in a decade, its exhilarating and irresistible blend of power and refined handling, indulgent comfort and the very latest in innovative technology is available in a wagon. The Calais Sportwagon – for discerning drivers, there is no other choice.

Key features include:

- 195kW* 3.6 litre High Output Alloytec V6 engine with 5-speed automatic transmission with Active Select
- 17" alloy wheels (4)
- Electronic Stability Control (ESC)incorporating:
 - Anti-lock Braking System (ABS)
 - Electronic Brakeforce Distribution (EBD)
 - Electronic Brake Assist (EBA)
 - Traction Control System (TCS)
- 6 airbags including:
 - Dual-stage front airbags for driver and front passenger
 - Side impact airbags for driver and front passenger
 - Side curtain airbags
- Rear Park Assist
- Cloth seat trim with leather appointed bolsters
- Leather wrap steering wheel with illuminated controls
- Leather wrap gear selector
- 6.5" multifunction colour LCD screen
- 6-disc CD audio system with MP3 compatibility and auxiliary input jack
- 7 speakers. Total 150 watts
- Dual-zone electronic climate control
- 6-way electric adjustment of front seats
- Projector headlamps
- Bluetooth® for compatible mobile phones
- 2 priority keys

6-way electric adjustable front seats
Adjustable for seat height, slide and tilt, the electric driver and front passenger seats let you find your preferred driving position at the touch of a button.

Advanced instrumentation
Designed to communicate quickly and clearly while minimising driver distraction, the instrument cluster comprises four analogue dials and a display capable of providing a range of additional information according to your personal preferences.

Centre multifunction colour display
In addition to presenting audio and dual-zone climate control settings, this large, easy-read screen provides full colour mapping with the optional satellite navigation installed. When the vehicle is stationary, it also doubles as a second DVD display if you opt for the roof-mounted rear seat DVD player.

Quality finishes
The Calais interior abounds with luxury, style and superb quality finishes, including the smooth sophistication of satin chrome door handles.

* Maximum figures as per ECE regulations

Calais V-Series

A compelling fusion of pure power and benchmark-setting automotive sophistication, the Calais V-Series Sportwagon is equipped with almost every luxury feature you care to imagine, 18-inch alloy wheels and optional six litre V8 powertrain. With room for everything except compromise, it is more than just Australia's ultimate wagon, this is sports luxury at its pinnacle – refined, brutally powerful and endlessly rewarding to drive.

- Key features include:**
- 195kW* 3.6 litre High Output Alloytec V6 engine with 5-speed automatic transmission with Active Select or optional 6.0 litre Generation 4 Alloy V8 engine with 6-speed automatic transmission with Active Select and Active Fuel Management (AFM)
 - 18" alloy wheels (4)
 - Electronic Stability Control (ESC) incorporating:
Anti-lock Braking System (ABS)
Electronic Brakeforce Distribution (EBD)
Electronic Brake Assist (EBA)
Traction Control System (TCS)
 - 6 airbags including:
Dual-stage front airbags for driver and front passenger
Side impact airbags for driver and front passenger
Side curtain airbags
 - Front and Rear Park Assist
 - Rain sensing windscreen wipers
 - Heated exterior mirrors with 'puddle' lamps and position memory
 - Leather appointed seats
 - Sports profile leather wrap steering wheel with illuminated controls
 - Leather wrap gear selector
 - Roof mounted DVD player with colour LCD screen
 - 6-disc CD audio system with MP3 compatibility and auxiliary input jack
7 speakers. Total 150 watts
 - Dual-zone electronic climate control
 - 8-way electric adjustment of front seats. Driver's seat with memory for 3 settings
 - Projector headlamps
 - Bluetooth® for compatible mobile phones
 - 2 priority keys

Front and Rear Park Assist
The combination of audible and visible warnings – the latter displaying both the proximity and direction of potential obstacles on the vehicle's centre multifunction colour display – make parking a breeze in even the tightest spaces.

Rear cargo net
Standard with the Calais V-Series Sportwagon, the flexible rear cargo net can secure items large and small against the load floor, rear seat backs or either side of the rear cargo area.

Rain sensing, flat blade wipers
Not only does Calais V-Series detect rain on the windscreen, it determines how heavily it's falling, and adjusts wiper speed accordingly. Because the wipers utilise flat blades, screen clearing ability is also improved over traditional wiper design.

Integrated DVD player
Providing entertainment on the go for rear seat passengers, the roof-mounted DVD player includes a fold down colour screen, remote control and dual wireless headphones. When the vehicle is stationary, front seat occupants can also watch via the centre multifunction display.

customer care

easy purchase options	ownership benefits
Finance	Holden Service
SmartChoices, provided by GMAC Financial Services, is an array of automotive finance products designed to help the dream of driving a new Holden become a reality. Just select the product, term and payment structure that best suits your lifestyle, your Holden Dealer can provide more information. ¹	With one of the largest Service Networks in the country, Holden Dealers can supply an enviable level of customer care. Only Holden Dealership technicians have access to regular Holden factory training and equipment.
Insurance	Holden New Vehicle Warranty
Holden Insurance offers a range of competitively priced insurance products, providing tailor-made protection, at the level of cover you need. For more information, call the Holden Insurance hotline on 1300 784 026. ¹	Every new Holden comes with a New Vehicle Warranty, covering your Holden for 3 years ⁵ or 100,000 kilometres, whichever comes first. This factory backed warranty covers items including the engine, transmission, interior and exterior components. Refer to your Owner's handbook or see your Holden Dealer for full terms, conditions and exclusions.
Holden Leasing	Holden PLUS Extended Factory Warranty
Businesses of all sizes are now accessing vehicle leasing options with Holden Leasing. We operate nationally through the Holden Dealer Network and our dedicated service and support team. Our people are responsive professionals who understand your business and what it means to deliver total fleet management solutions. To find out how Holden Leasing can help you, call us on 1800 022 077.	Holden also offers Holden PLUS Extended Factory Warranty. Holden PLUS is a complete extension of your New Vehicle Warranty, giving you peace of mind because your car is factory backed for up to 3 additional years. The very same items covered under the New Vehicle Warranty will continue to be covered under Holden PLUS, without exclusion. The Holden PLUS Extended Factory Warranty can be purchased through your local Holden Dealer at the same time as your Holden vehicle purchase. See your Holden Dealer or call 1300 308 062 for full terms and conditions.
GM Holden Card	24 Hour Roadside Assistance
The GM Holden Card can assist you to get into a new Holden sooner. 10% of your credit card purchases go towards a Rebate of up to \$3,000 on your new Holden ² (depending on model). That's up to \$1 saving on your new Holden for every \$10 spent. There are a range of extra features including up to 45 days interest free ³ on credit card purchases and a competitive interest rate. Apply ⁴ online at www.holden.com.au/mastercard , or call the GM Holden Card 24hr helpline on 131 200.	Provided for the first year of your new Holden's life ³ . Holden Roadside Assistance is one of Australia's most comprehensive assistance packages with over 3,000 Roadside Assistance patrols nationwide ³ . There to help with even the smallest service, the toll-free Roadside Assistance hotline is always open, 1800 817 100.
For more information contact Holden Customer Assistance on 1800 033 349 Monday to Friday 8am to 7pm or Saturday 9am to 1pm EST or visit www.holden.com.au	

¹ Subject to approval. ² The maximum GM Holden Card 'Core Rebate' (plus additional 'Bonus Rebate' accumulated via the Partner Program) applicable for each vehicle, accrued over a maximum of five years may be applied per eligible vehicle purchased. For the maximum Rebate applicable for each vehicle refer to the 'Maximum Rebate Levels' table at www.westpac.com.au/holden. Vehicle sales for which a fleet allowance is paid are not eligible for GM Holden Card Rebate. Earning and redemption of Rebate towards a new Holden is subject to the GM Holden Card Rebate Program Rules. ³ The interest-free period applies where the card account is fully paid by the due date each month. ⁴ GM Holden Card is approved by Westpac. Applications are subject to Westpac's normal lending criteria. ⁵ From date of first registration. ⁶ In remote or sparsely populated areas you may experience delay in obtaining Roadside Assistance. Refer to the Customer Care brochure in your glovebox for full terms and conditions of this service.
